5. Nature of the Emergency
Repair of the Hakalau Bridge (Hawaii Belt Road, District of North Hilo) footings to prevent collapse of the structure.

7. Price:
\$127,000.00

8. Description of goods, services, or construction to be purchased
Our maintenance crews noticed a considerable amount of erosion of the bridge footings in the water. Our bridge inspection consultant was called in to perform a more detailed inspection, and found 3 footings to be in poor condition, one of which was in really bad condition. DOT then reduced the weight limit to cross the bridge, and contra-flowed traffic to reduce the load on the footings.

9. Reason for Vendor Selection
The Contractor (HDCC) was currently completing some retrofit work to the upper portion of the bridge, and was capable of performing the work.
