5. Nature of the Emergency

There have been numerous large tree branches that have fallen from very tall Albizia trees (some as tall as 130 ft) onto Kuhio Highway in Kalihiwai (near mile marker 24) on the Island of Kauai. These trees are a serious threat to the safety of the public. Several large branches (some as long as 14 feet) have fallen on vehicles passing through the area and have caused numerous roadway closures, which cut access to and from the Northern part of the Island. This section of Kuhio Highway is the only access for the northern part of the Island (Princeville, Hanalei and Haena). The Highways Division would like to remove and trim some of Albizia trees that we have determined to be a potential threat to the safety of the public. Additionally, Hurricane Guillermo which is predicted to bring high winds next week, which may bring down larger branches and cause more significant damage to the area.
