Department/Division/Agency

Pursuant to §103D-307, HRS, and Subchapter 10, Chapter 3-122, HAR, the Department requests approval for the following:

3. Date 12/18/2009 4. After the fact YES NO

5. Nature of the Emergency
Multiple Landslide/Rockslide blocking traffic lanes and endangering public safety a few weeks ago. We have been actively working to remove unstable rocks and soils.

THIS IS A SUPPLEMENT TO E.P. 10-012-K.

6. Vendor: JANOD CONTRACTORS
Address: 1284 Kamehame Drive, P.O. Box 25248, Honolulu, HI 96825-3505
7. Price: \$130000.00

8. Description of goods, services, or construction to be purchased
Landslide/rockslide remediation on the affected slopes above Kuhio Highway (Route 560) at Hanalei Hill and Lumahai. Removal of unstable soils, rocks, boulders and vegetation within the slippage zones. During early stages of rock scaling work at Hanalei Hill, additional clusters of large unstable rocks were discovered partially hidden by vegetation. At Lumahai, we underestimated the amount of "slushing" required.

9. Reason for Vendor Selection
This is the only Contractor in Hawaii that uses a special "slusher" machine that removes loose soils and rocks much more quickly and efficiently than other methods of remediation. In addition this Contractor works very quickly on steep slopes to dislodge unstable boulders and loose soils.
