5. Nature of the Emergency
AMEC shall provide emergency mold and moisture consulting services to the Hawaii State Public Library System. Included in these services is moisture and mold assessment of building materials and internal contents of the Ewa Beach Public and School Library. A preliminary walk through has indicated mold and moisture impacted areas within the library. (Continued on attachment).

Address: 3375 Koapaka Street, Suite F-251, Honolulu, HI 96819
7. Price:

8. Description of goods, services, or construction to be purchased
The library must remain closed due to potential deleterious health effects to public and library workers if the facility remains open. Procurement by competitive means would delay remedial action and may result in significantly greater damage or spread of mold to unaffected areas.

9. Reason for Vendor Selection
Please refer to the background information on this mold problem. After the initial site inspection and discussions with DAGS, Central Services, it was determined that the problem warranted professional assessment and remediation. DAGS contacted AMEC and the Hawaii Restorative Services, Inc., directly.

11. I certify that the information provided above is to the best of my knowledge, true and correct.
