

'11 AUG -4 A9:15

STATE PROCUREMENT OFFICE
NOTICE OF AND REQUEST FOR EXEMPTION
FROM CHAPTER 103D, HRS

STATE PROCUREMENT OFFICE
STATE OF HAWAII

1. TO: Chief Procurement Officer
2. FROM: DBEDT/SID

Department/Division/Agency
Pursuant to §103D-102(b)(4), HRS, and Chapter 3-120, HAR, the Department requests a procurement exemption to purchase the following:

3. Description of goods, services or construction:

The goods/services are composed of a Dell PowerEdge R610 server, an ESRI ArcGIS Server 10 Standard Enterprise License, including ESRI ArcGIS Server Jump Start service, and 1 year of software maintenance. For details, please see Exhibit A, attached.

4. Name of Vendor: ESRI Address: 380 New York Street Redlands, CA 92373-8100	5. Price: \$35,602.08
--	--------------------------

6. Term of Contract: From: 9/1/11 To: 8/31/12	7. Prior Exemption Ref. No. SS11-084-B
---	---

8. Explanation describing how procurement by competitive means is either not practicable or not advantageous to the State:

Please see exhibit B, attached.

9. Details of the process or procedures to be followed in selecting the vendor to ensure maximum fair and open competition as practicable:

The vendor has been selected in a fair and open manner. Quotations have been obtained from both ESRI and Dell (see attached), and the total cost of the bundled system is both less expensive and technically more advantageous to the State (as it will avoid service problems should any technical issues arise) than purchasing the components separately from two vendors.

10. A description of the agency's internal controls and approval requirements for the exempted procurement:

First, the procurement is submitted by the project manager to the branch chief for review and approval. Next, the procurement is reviewed by the SID Contracts Office, then routed to the SID Administrator for approval. It is then routed to DBEDT's ASO for approval. Upon ASO approval, it is routed to the DBEDT Director for review and approval. After the Director has approved the exemption request, it is sent to SPO for consideration.

REQUEST FOR EXEMPTION FROM CHAPTER 103D, HRS (Cont.)

12. A list of agency personnel, by position, who will be involved in the approval process and administration of the contract:		
Name	Position	Involvement in Process
Richard C. Lim	Director	<input checked="" type="checkbox"/> Approval <input type="checkbox"/> Administration
Ken N. Kitamura	Administrative Services Officer	<input checked="" type="checkbox"/> Approval <input type="checkbox"/> Administration
Estrella A. Seese	Acting Energy Pgm Administrator	<input checked="" type="checkbox"/> Approval <input type="checkbox"/> Administration
Jeffrey Pang	Research Statistician	<input type="checkbox"/> Approval <input checked="" type="checkbox"/> Administration
Susan Gray-Ellis	Contracting Specialist	<input type="checkbox"/> Approval <input checked="" type="checkbox"/> Administration
Andrea Gill	Renewable Energy Specialist	<input type="checkbox"/> Approval <input checked="" type="checkbox"/> Administration

13. Direct inquiries to:	Department: DBEDT/SID Contact Name: Andrea Gill Phone Number: 81-808-933-0312 Fax Number: 81-808-933-0313
--------------------------	--

Agency shall ensure adherence to applicable administrative and statutory requirements

14. *I certify that the information provided above is, to the best of my knowledge, true and correct.*

for Mary Ann Evans
 Department Head

August 2, 2011
 Date

Reserved for SPO Use Only
15. Date Notice Posted <u>8/2/2011</u>
The Chief Procurement Officer is in the process of reviewing this request for exemption from Chapter 103D, HRS. Submit written objections to this notice to issue an exemption from Chapter 103D, HRS, within seven calendar days or as otherwise allowed from the above posted date to: <p align="center"> Chief Procurement Officer State Procurement Office P.O. Box 119 Honolulu, Hawaii 96810-0119 </p>
Chief Procurement Officer's comments: <p align="center"> This approval is for the solicitation process only, HRS section 103D-310(c) and HAR section 3-122-112, shall apply and award is required to be posted on the Awards Reporting System. </p>

16. APPROVED DISAPPROVED NO ACTION REQUIRED

Andrea Gill
 Chief Procurement Officer Date 8/26/2011

Exhibit B

Explanation describing how procurement by competitive means is either not practicable or not advantageous to the State:

Only ESRI offers the ArcGIS Server software and Jump Start Service that we require. We have already obtained a sole source approval for this portion of the procurement (SS 11-084-B). We also need to acquire hardware for this system (a server). The server, or an equivalent, could be obtained from any reputable hardware vendor, and in fact is available via a WSCA vendor (Dell), from whom a quotation has been obtained (attached). However, the total price of the hardware/software/service bundle is considerably less than if we were to acquire the hardware and software separately (see comparison table, below). No other vendor is able to quote a combined price for both hardware and software, because only ESRI sells the software.

Item	ESRI Bundle	ESRI and Dell	Notes
Dell PowerEdge Server	bundled	10,887.62	(Server configuration is the same from both vendors)
ArcGIS Server w/ Jumpstart	bundled	29,319.36	
Total System Cost	35,602.08	40,206.98	(includes tax)

Although DBEDT could attempt to purchase the hardware plus the software via competitive bids, if the winning bid was based solely on price, the award would still be made to ESRI because the hardware/software bundle is \$4,604.90 lower in cost. If, in order to bid a portion of this acquisition competitively, bids were to be obtained from Dell on the hardware alone, the software would still need to be acquired from ESRI and the combined cost of the Dell hardware and the ESRI software would be \$40,206.08. However, if the software/hardware/service bundle, which is available only from ESRI, was to be purchased, the cost is significantly lower - \$35,602.08.

In addition, as DBEDT's Departmental IT Coordinator pointed out, although the hardware is not technically considered a sole source because it is available from various vendors, in the long run it is best to purchase both the hardware and software from the same vendor. By purchasing from a single vendor, issues related to compatibility, reliability, trouble shooting and warranties are avoided.

Procuring via an exemption for the entire package of hardware and software is the most open way to conduct the procurement, rather than using the sole source to acquire the software plus a competitive bid to acquire the hardware (our original intent), since only ESRI can sell the software, and we are actually purchasing one system, consisting of both hardware and software. We have determined that it is most advantageous to the State, both in terms of technical feasibility and cost, to purchase from ESRI.

To summarize – purchasing the hardware and software bundle offered by ESRI is most advantageous to the State because:

1. Bundling the purchase of hardware and software would result in a considerable cost savings to the State (\$4,604.90).
2. Purchasing the hardware and software from the same vendor is strongly suggested by the DBEDT IT Coordinator, based on his knowledge and expertise in dealing with computer compatibility, reliability, and warranty and technical support issues between vendors.
3. Procuring via an exemption is the most open way of conducting this procurement

Notes:

- A Sole Source exemption for the purchase of the ArcGIS Server software and the Jump Start installation was approved on July 11, 2011.
- A T-205 for the purchase of the hardware and software was submitted to ICSD and has been approved.

Exhibit A

System Components – hardware, software listing, and quotations for hardware/software bundle, hardware alone, software alone.
