Highlights

Presented by the Ocean Energy Council (OEC) and TSC (Technology Systems Corporation), EnergyOcean is the only U.S.-held conference/exhibition focusing on activities to develop sustainable energy sources from the sea, and provides a platform to learn of the latest technology, capabilities, opportunities and policy issues related to this vitally important topic.

The goal of the event is to put U.S. tech-nologists and scientists together with the international experience and marketplace. Technologists will present the latest develop-ments in Offshore Wind, Wave, Tidal, Current, Thermal, Solar and Hybrid power generation technology. Specialty firms will present market insights and discuss legal and environmental issues pertaining to installing power generation equipment offshore.
