From: Health/Family Health Services Div/Children with Spec Health Needs Branch  
*Department/Division/Branch or Office*

Pursuant to §103F-403, HRS, and Chapter 3-144, HAR, the department head has made a determination that an adequate basis for a restrictive purchase of services exists and requests approval to make a restrictive purchase for the following:

1. Title and description of health and human service(s): Clinical genetics services, consultation and education. The services will consist of in-person clinical genetics evaluation and follow-up at regularly scheduled genetics clinics in Honolulu and on the Neighbor Islands; 24 hour per day/7 days per week availability for phone consultation; telemedicine sessions as needed; administrative and program consultation for applicable Department of Health programs; and genetics education for healthcare providers, public health staff and the general public.	
2. Provider Name and Address:	Kapiolani Medical Specialists, 1310 Punahou Street, Honolulu, HI 96813
3. Total Contract Funds:	\$50,000
Contract Funds per Year (if applicable):	
4. RH No. of Previous Request for this Service (if applicable)	RH-11-01
5. Term of Contract:	Start: July 1, 2011      End: June 30, 2012
If the contract term is longer than 1 year, provide justification for the extended term:	
6. Describe the circumstances justifying a restrictive purchase: To respond to this crisis of not having a M.D. geneticist in the state from 2001-2003, the Department of Health, Kapiolani Medical Specialists, Queen's Medical Center, and the University of Hawaii School of Medicine formed a collaborative relationship in 2003 to provide clinical genetics and educational services. This collaborative is under the umbrella of Kapiolani Medical Specialists who have established a clinical genetics office with staff to provide consultations to children and adults and genetics education to the community. Kapiolani Medical Specialists operates the only pediatric clinical genetics service by board certified genetics staff in Hawaii. Services are provided statewide via in-person clinics in Honolulu and on the Neighbor Islands and telemedicine sessions when families can not travel to Honolulu or a Neighbor Island clinic. The pediatric genetic services are especially important for the families who have newborns with genetic disorders detected through the mandated state newborn screening program. Continued intervention and monitoring by the genetics team are required for the children to survive and stay as healthy as possible.
