From: DHS/BESSD/FAP(LIHEAP)
Department/Division/Branch or Office

Pursuant to § 103F-101(a)(4), HRS, and Chapter 3-141, HAR, the Department requests a procurement exemption to purchase the following:

1. Title and description of health and human service(s):	<p>The Low Income Home Energy Assistance Program (LIHEAP) with the Department of Human Services is a federal program that provides heating/cooling to residences of low income households. It is the only federal program that provides actual fuel or energy payments to low income households. This program has been continuous since 1984 and is likely to grow as a mainstay of federal energy policy because of the rising costs of energy and weather-related issues, including deaths due to extreme heat or cold. Although DHS has administered the program as a State grantee since 1982 there is only one employee, therefore, provider services are necessary to process the 11,000+ applications from low income households, throughout the state.</p>

STATE OF HAWAII
NOTICE OF AND REQUEST FOR
EXEMPTION FROM CHAPTER 103F, HRS

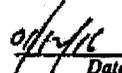

6. Describe how procurement by competitive means is either not practicable or not advantageous to the State:
There are no other agencies in Hawaii that exist nor receive funds under the Economic Opportunity Act of 1964 (17 years prior to LIHEAP) as required by Public Laws 97-35 and 98-558. The Law requires as a condition for State grantees to receive LIHEAP funds, the Governor shall assure that special consideration be given only to local nonprofit agencies which: 1) were receiving federal funds under any low income energy assistance or weatherization program under the Economic Opportunity Act of 1964, and 2) have the capacity to undertake a timely and effective energy crisis intervention program and the ability to carry out the program in the local community. There are only four such community action agencies (HCAP for Oahu, HCEOC for Hawaii, MEO for Maui and KEO for Kauai). No other agencies meet a single requirement, much less both. These are the only agencies that exist in Hawaii that are federally approved and there is no anticipation that any other agencies will meet this criteria. Periodic search for other agencies that could meet the criteria above will be initiated.
7. Describe the reason for the selection of the provider including a description of how the procedure ensured the maximum fair and open competition practicable:
All providers within the state were looked at to ensure none were adversely affected or wrongly denied participation. HCAP, HCEOC, KEO and MEO are the four community action agencies (CAPS) formed in 1964 in the Governor's Office and the Health and Community Services council. These are the only agencies in Hawaii established under the Economic Opportunity Act of 1964. They were the original operators of the low income energy assistance program from the program's inception in 1980, until the Governor assigned LIHEAP administration to the Department of Human Services circa 1982. These four agencies are also the only agencies in Hawaii that have operated and continue to operate the federal Weatherization program for the Department of Energy. In addition to LIHEAP and Weatherization, the CAPS implement for the State other Community Services Block Grant Programs, such as Head Start, as well as food distribution programs. They are the most effective in providing service to their communities and outreaching to potential LIHEAP eligibles because of their grass-roots organization established over 40 years ago.
8. Describe the state agency's internal controls and approval requirements for the exempted procurement:
Each year the Department requests participation and establishes contacts with the four community action agencies. Training of CAP staff and monitoring performance is conducted by the LIHEAP Program Specialist who is an employee of the Department of Human Services. Reviews and additional controls are established by having the publicly regulated utility companies check and compare every utility account submitted by the CAP against utility company data. The Department designs and provides the computer programs given each CAP and established procedures by which each agency must document its records, including controls designed to check for duplication and to flag inconsistent data or unusual activity. The Department gathers and validates federally required information for congressionally required and other mandatory and scheduled federal reports. CAP agencies are limited to processing applications and submitting records to the State. The Department, not the CAP agencies, processes payments to eligible households. Payments are processed through the State's fiscal operations, DAGS and FAMIS. No direct funds are issued or administered by the CAPS. Required procedures (outreach for the county of responsibility, consistent application processing, uniformity of policy application, appropriate response to applicants and recipients, confidentiality, fair hearing and appeal activities, responsiveness to Department reviews and audits, etc.) are built into training, monitoring and case review activities the Department shall oversee.
9. List the state agency personnel, by position title, who will be involved in the approval process and administration of the contract:
Teri Ann Escudero, LIHEAP Coordinator/Program Specialist
Patricia Quiacusan, Acting Financial Assistance Program Administrator
Scott Nakasone, Acting Benefit Employment and Support Services Division Administrator
