Service Specifications

Section 2

Service Specifications

2.1 Introduction

The Hawaii Revised Statutes (§321-172) require the Child and Adolescent Mental Health Division (CAMHD) to coordinate the effective and efficient delivery of mental health services to children and youth, including services provided by private nonprofit agencies under contract to the Department of Health, and to be responsible for the development and implementation of centralized and highly specialized programs for children and youth.

The Department of Health receives federal block grant funds from the Substance Abuse and Mental Health Services Administration under the Community Mental Health Services (CMHS) Block Grant program. Title XIX, Part B, Subpart I, as amended, Public Law 106 – 310”establishes a Block Grant for Community Mental Health Services administered by CMHS, which permits the allocation of funds to States for the provision of community mental health services. Each year the CAMHD develops, in collaboration with the State Council on Mental Health, a state plan for the provision of children’s mental health services as identified in its application for federal block grant funds.

This children’s mental health state plan is developed in accordance with federal law (106-310), which requires the submission of an annual plan in order to qualify for federal funding in the area of community mental health services. The focus of the Community Mental Health Services Block Grant program, as administered by the CMHS is the provision of comprehensive community-based mental health services. The CAMHD’s state plan as submitted in application for this grant is consistent with the focus and vision to strengthen state community-based mental health services to adults with a serious mental illness and to children with a serious emotional disturbance. The CAMHD’s system of care is based on the Hawaii Child and Adolescent Service System Program (CASSP) principles (See Section 5, Attachment D), requiring that the system be family and child-centered, with the delivery of services, programs and placements in the least restrictive setting for the individual and family.”

For FY 2014-2015 CAMHD plans to use the block grant funds to support one innovative program that promote the mental health of homeless youth

A. Overview, purpose or need

In the U.S., over one-fourth of the homeless population is children. Forty-two percent of these children are under the age of five. Over the course of a year, as many as 1.4 million children experience homelessness. The literature on the health of homeless children documents learning disabilities, behavior disorders, and emotional problems. Research suggests that persistent homelessness amplifies mental health risks.

The experience of homelessness results in a loss of community, routines, possessions, privacy, and security. For youth, homelessness can create a loss of stability, disruption in education, increased food insecurity, and increased exposure to disease, violence and substance abuse. Anxiety, loss of sleep, frequent illness, and hunger can contribute to learning disabilities. These conditions can trigger or exacerbate emotional problems in children.

Homelessness affects cognitive and emotional development:

- Homeless babies show significantly slower development than other children.
- More than 20% of homeless children between the ages of 3 and 6 have emotional problems serious enough to require professional care
- By the time homeless children are 8 years old, one in three has a major mental disorder
- About half of homeless school-age children have significant mental health problems including anxiety, depression, posttraumatic stress disorder (“PTSD”), suicide ideation and substance abuse disorders
- Less than one-third of homeless children receive mental health treatment

Additionally,

- Homeless children go hungry at twice the rate of other children
- 25% have witnessed acts of violence in their families
- Homeless children experience physical and sexual abuse at two to three times the rate of other children
- Homeless children are separated from their family to be put in foster care at higher rates than other children (12% vs. 1%)

Trauma in the Lives of Homeless Youth

Rates of abuse among homeless youth vary widely across studies, ranging from 17%-35% for sexual abuse and 40%-60% for physical abuse and neglect. Two studies conducted for the U.S. Department of Human Services found 46% of runaway and homeless youth reported being physically abused, 17% reported being sexually exploited, and 38% reported being emotionally abused. The National Center on Family Homelessness estimates that 35% of homeless children have been the subject of a child protection investigation and 24% have witnessed acts of violence within their family.

Youth who take to the streets are vulnerable to further victimization by predatory adults, criminals, pimps and other street youth. They may be exploited or become victims of street violence or members of gangs which provide protection and a sense of family. They may be drawn into criminal activity or illicit sex in order to earn money for food, shelter, clothing and other basic needs. They often drop out of school, forfeiting their opportunities to learn and to become independent, self-sufficient, contributing members of society. In one study, 43% of homeless adolescent males and 39% of adolescent females reported being assaulted with a weapon while living on the

streets. Youth identifying as gay, lesbian, bisexual, transgender or questioning (GLBTQ) will experience 7.4 more acts of sexual violence than other homeless youth. GLBTQ youth are often marginalized, disenfranchised, and have typically encountered discrimination and harassment within traditional service program settings both by the clients and professionals.

The situations for homeless youth can appear hopeless. One survey found that 25% of youth in shelters and 32% of those on the street had attempted suicide. GLBTQ youth are more than twice as likely to attempt suicide as their heterosexual peers. The stresses associated with homelessness can exacerbate other trauma-related difficulties and interfere with trauma recovery.

Homeless children frequently survive with little or no contact with medical professionals, and as a result, their health problems may go untreated and worsen. Their emotional and behavioral health issues are typically not addressed. Without the intervention and support of community institutions, these youth may not acquire the personal and work skills that will enable them to become self-sufficient and independent. The end result for homeless children and youth is that without adequate intervention, supports and services, there may be long term health and emotional/behavioral problems.

Therefore, the CAMHD seeks to support one program to provide outreach services for homeless and at-risk youth in Waikiki and may include additional areas on the island of Oahu.

Service Area Options

One proposal will be selected to provide outreach to homeless youth and other youth at risk for mental health challenges. For the purposes of this RFP, at-risk youth include those who are runaway, throwaway, street-identified youth, and gay/lesbian/bisexual/transgender/questioning (GLBTQ) youth.

Outreach to Homeless and At-Risk Youth

The overall purpose of this RFP is to provide emotional and behavioral health services to homeless youth and other youth at risk for mental health difficulties. However, it is recognized that extensive outreach services are necessary to build relationships with these populations before initiating any traditional service programs.

The array of social, emotional and physical health problems faced by homeless/runaway/throwaway/street-identified youth is dramatically compounded by the incidence of sexual exploitation and/or abuse, and alcohol and/or substance abuse. These youth are victimized by strangers as well as by individuals known to the youth, and a significant number of youth are exploited as they participate in survival sex to meet their basic needs for food and shelter. Homeless youth frequently abuse and develop a dependency on alcohol and/or other substance during these times. Because of these issues, these youth may often require intensive services; however, they must be

RFP Service Specifications (Rev 8/20/12)

afforded the opportunity to slowly build trust relationships with caring and responsible adults as the first step to successfully encouraging them to leave their situation. The purpose of the outreach services is to support the development of safe, stable relationships so that homeless and at-risk youth may eventually develop the trust and capacity to accept additional support and services they may require.

Trauma-Informed Care

Homeless and at-risk youth often struggle to recover from both previous and new traumatic experiences. Strategies to promote trauma-informed and effective treatment of homeless and at-risk youth, include:

- Identify and address agency policies and procedures that could re-traumatize youth by inadvertently having them relive their traumatic experiences before they have the knowledge and skills to cope.
- Offer assistance with no strings attached.
- Consider the youth's behavior in the context of their life experiences, including traumatic life experiences.
- Prioritize youths' immediate needs. Youth with unmet primary needs may have difficulty focusing on forming a trusting relationship with service providers.
- During assessment, determine the youth's strengths and talents, rather than focusing only on problems and deficits.
- Allow homeless youth to make their own choices whenever possible.
- Assess the youth's cognitive abilities so that appropriate language can be used for youth to better understand.
- Offer youth referrals to agencies that are youth-friendly and welcome young people.
- Tailor interactions and services to the individual needs of each youth.
- Recognize that youth may have co-occurring disorders and other mental health problems that need to be addressed.

C. Description of the service goals

Homeless Youth Outreach

The goal of the outreach services to homeless and at-risk youth is to establish and build relationships with these youth. According to the National Child Traumatic Stress Network, "Even if a homeless youth never seeks out formal mental health treatment, a

3. CERTIFICATION REGARDING LOBBYING

Title 31, United States Code, Section 1352, entitled "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions," generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non-appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs (45 CFR Part 93).

The undersigned (authorized official signing for the applicant organization) certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the under-

signed, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions. (If needed, Standard Form-LLL, "Disclosure of Lobbying Activities," its instructions, and continuation sheet are included at the end of this application form.)

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, U.S. Code. 4. CERTIFICATION REGARDING PROGRAM FRAUD CIVIL REMEDIES ACT (PFCRA)

The undersigned (authorized official signing for the applicant organization) certifies that the statements herein are true, complete, and accurate to the best of his or her knowledge, and that he or she is aware that any false, fictitious, or fraudulent statements or claims may subject him or her to criminal, civil, or administrative penalties. The undersigned agrees that the applicant organization will comply with the Public Health Service terms and conditions of award if a grant is awarded as a result of this application.

5. CERTIFICATION REGARDING ENVIRONMENTAL TOBACCO SMOKE

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children’s services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children’s services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children’s services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.
