SCHOOL BASED BEHAVIORAL HEALTH SERVICES SECTION

December 20, 2006

ADDENDUM E

TO

REQUEST FOR PROPOSALS

No. RFP F07-069, F07-071 INTENSIVE LEARNING CENTERS

The purpose of this Addendum is to provide further clarification to questions raised after the posting of Addendum A on November 24, 2006.

- Q1. Regarding the ILC Program for students ages 3 – 12 years, Section 3. Table 1. “Anticipated Slots Needed by District for Intensive Learning Center” states that Honolulu District needs 20 slots for this age group. What about the other Oahu districts? Will they need this service?
- A1. Please refer back to Section 2. Service Specifications, page 2-11. The DOE envisions having one (1) program site for students ages 3 -12 years operated in the Honolulu District. The program site shall be operable and support the placement of up to 20 students, regardless of whether they belong to Honolulu, Leeward or Windward school districts. Central District does not anticipate the need to utilize this specific service.
