## 2.1 Introduction

### A. Overview, purpose or need

The Adult Mental Health Division (“DIVISION”) of the Hawaii State Department of Health (“DEPARTMENT”) is responsible for coordinating public and private human services into an integrated and responsive delivery system for mental health needs. Provision of direct services to consumers in the public sector is offered through programs offered by the Community Mental Health Centers (“CENTERS”) and the Hawaii State Hospital (“HOSPITAL”). In addition, the DIVISION contracts on a purchase of service basis with private providers for mental health services to supplement the efforts of the CENTERS and the HOSPITAL.

For purposes related to this RFP, the basic functions or responsibilities of the DIVISION include:

7. Authorizing and determining necessity of DIVISION funded services;
8. Monitoring the quality of services provided by the provider and subcontractors;
9. Reviewing and analyzing utilization of services and reports provided by the provider;

### B. Planning activities conducted in preparation for this RFP

The DIVISION published a Request for Information on January 23, 2012, seeking the public’s input on the design of this service for statewide services, the availability of potential service providers, staffing capabilities for services and culturally specific service capabilities.

**C. Description of the goals of the service**

Many consumers receive federal and other financial support. The ability to manage these funds appropriately can vary with some consumers being unable to manage or direct the management of their own funds to those who are independent in these money management tasks. The purpose of representative payee services is to help to ensure that benefit payments are used for basic needs, which provide the consumer with a more stable environment.

A Representative Payee Program is intended to provide money management for registered consumers of the DIVISION. The representative payee shall be directly responsible for the payment of rent, utilities and transportation, disbursement of funds for food and clothing for the consumer, and the provision of a daily or weekly amount of money for each consumer's personal use from their entitlements. Preference will be provided to applicants who propose to locate a representative payee, physically, on the island/county where the service will be provided.

The goals for the services described in this RFP include, but are not limited to:

1. Provide money management services for registered consumers of the DIVISION, who have the capacity to learn how to manage their own finances within two (2) years of initial service authorization.
2. Develop a budget in collaboration with consumers and their DIVISION-assigned case manager.
3. Establish a separate bank account for representative payee services for consumers to ensure an efficient and flexible financial system to implement this money management service.
4. Ensure the timely and appropriate payment of rent, utilities, transportation, food, clothes and other essential daily living needs of consumers.
5. Provide a daily or weekly amount of money for each consumer's personal use.
6. Provide ongoing money management and budgeting training and assessments of consumers' ability to manage their resources independently.
7. For consumers who begin to demonstrate the ability to become financially self-sufficient, provide opportunities for increased independence and work towards achieving complete independence from rep payee services.
8. Establish effective linkages with the United States Social Security Administration, state operated and purchase of service case management providers, and other pertinent continuity community agencies.
9. Maintain oversight of consumers' finances to ensure appropriate disbursement and receipt of funds and mitigate any detrimental reduction to these funds.

The representative payee agency shall collaborate with the DIVISION'S Utilization Management process and community designated case manager to effectively service their consumers.

For consumers who begin to demonstrate the ability to be responsible with money and become self-sufficient, involvement with the representative payee program shall decrease. Consumers who are unable to become sufficient at managing their own finances via this service may need to be transferred to the United States Social Security Administration's Representative Payee Program.

The program shall have effective linkages with the United States Social Security Administration, the CENTERS, community designated case manager, the consumers, and a bank for establishing an efficient and flexible financial system in order to implement this money management service.

The representative payee program shall be committed to:

1. Providing services consistent with the Comprehensive, Continuous, Integrated System of Care ("CCISC") model (see Attachment D), with particular attention to principles 3 and 4;
2. Treating consumers with dignity and respect;
3. Empowering consumers to achieve maximum autonomy and self-reliance;
4. Ensuring services for all consumers for the duration of their need; and
5. Acknowledging the right of consumers to make choices and be included in decision making.

**D. Description of the target population to be served**

The target population to be served is adults with severe and persistent mental illness, who meet the DIVISION's eligibility criteria and who have the capability to learn how to manage their own finances within two (2) years of initial service authorization.

**E. Geographic coverage of service**

Statewide.

Applicants may apply for one (1) or more islands or by county of any island. The applicant shall demonstrate capacity to provide the required services in the service area for which they are applying. Applicants shall also specify the number of consumers they intend to serve per county.

**F. Probable funding amounts, source, and period of availability**

The source of funding is state funds or a combination of state and federal funds. Both profit and non-profit organizations are eligible for state funds. Please note

that based on the availability of funds, the amount allocated to applicants who are awarded contracts may change.

The DIVISION considers itself the payer of last resort, and expects applicants to seek and obtain third party reimbursement as applicable. (See section on Financial Requirements, Third Party Liability.)

If a provider materially fails to comply with terms and conditions of the contract, the DIVISION may, as appropriate under the circumstances:

1. Temporarily withhold new referrals pending correction of a deficiency or a non-submission of a report by a provider.
2. Disallow all or part of the cost.
3. Restrict, suspend or terminate the contract.

In the event that additional funds become available for similar services, the DEPARTMENT reserves the right to increase funding amounts, drawing from other possible funding sources, such as state or federal grants.

From time to time, the DIVISION may seek outside funding opportunities to transform its existing public mental health services into an improved system of care. Providers of this service may be asked to participate in these opportunities, with funding sources to include, but not be limited to, federal, state, county, and private foundations.

Competition is encouraged among as many applicants as possible.

The DIVISION shall describe the information that is to be provided and explain the procedures to be followed through the DIVISION staff and in its printed material. The provider shall also explain the information and the procedures to be followed by the consumers during the orientation process.

It is expected that not all consumers will remember to or be able to provide information on changes to their status. Therefore, it is important for the provider to obtain and forward such information

If the billing has not been done appropriately and the provider does not believe the inappropriate billing meets the definition of fraud (i.e., no intention to defraud), the provider shall notify the DIVISION in writing of its findings, adjustments

made to billings, and education and training provided to prevent future occurrences.

Any suspected case of physical, emotional or financial abuse or neglect of a consumer who is a dependent adult must be reported by the provider to Adult Protective Services, or of a child to Child Protective Services, and to the DIVISION immediately upon discovery.

Reimbursements received by providers for consumers with third party coverage (including consumers with Medicaid and/or Medicare) will be considered full payment (see Section 2.2A11.g.). Any DIVISION overpayments for services shall be recouped by the DIVISION from the provider. The DIVISION has final determination in what is considered a necessary, reimbursable service.

Claims for payment received after one hundred twenty (120) calendar days of the date of service shall be denied for exceeding the filing deadline. For claims that have been denied by the DIVISION, the provider shall have thirty (30) days from the date of denial, to resubmit a claim for payment. Claims resubmitted after thirty (30) days of the date of denial shall be denied for exceeding the filing deadline.

Where a consumer's primary insurance carrier has been billed, the filing deadline will be extended an additional thirty (30) calendar days, for a total of one hundred fifty (150) calendar days from the date of service.

1. When submitting Claims and/or Encounter Data, the provider shall: (a) use the most current coding methodologies on all forms; (b) abide by all applicable coding rules and associated guidelines as allowed by Federal/State law, including without limitation, inclusive code sets; and (c) agree that regardless of any provision or term in the contract, in the event a code is formally retired or replaced, the provider shall discontinue use of such code and begin use of the new or replacement code following the effective date published by the American Medical Association. Subcontractors and contractors shall also be bound by this requirement and it is the responsibility of the provider to ensure compliance with this requirement.

The provider shall obtain, maintain, and keep in force throughout the period of this Contract the following types of insurance:

The provider shall maintain in effect this liability insurance until the State has certified that the Provider's work under the contract has been completed satisfactorily.

Prior to or upon execution of the contract, the provider shall obtain a certificate of insurance verifying the existence of the necessary insurance coverage in the amounts stated above. The parties agree that the certificate of insurance shall be attached and be made a part of the contract.

The provider shall immediately provide written notice to the contracting department or agency should any of the insurance policies evidenced on its certificate of insurance forms be cancelled, limited in scope, or not renewed upon expiration.

If the scheduled expiration date of the insurance policy is earlier than the expiration date of the time of performance under the contract, the provider, upon renewal of the policy, shall promptly cause to be provided to the State an updated certificate of insurance.

**Comprehensive,  
Continuous, Integrated  
System of Care Model  
by Kenneth Minkoff, M.D.**

# Comprehensive, Continuous, Integrated System of Care Model

By Kenneth Minkoff, M.D.

The eight research-derived and consensus-derived principles that guide the implementation of the CCISC are as follows:

1. *Dual diagnosis is an expectation, not an exception:* Epidemiologic data defining the high prevalence of comorbidity, along with clinical outcome data associating individuals with co-occurring psychiatric and substance disorders (“ICOPSD”) with poor outcomes and high costs in multiple systems, imply that the whole system, at every level, must be designed to use all of its resources in accordance with this expectation. This implies the need for an integrated system planning process, in which each funding stream, each program, all clinical practices, and all clinician competencies are designed proactively to address the individuals with co-occurring disorders who present in each component of the system already.
2. *All ICOPSD are not the same; the national consensus four quadrant model for categorizing co-occurring disorders (NASMHPD, 1998) can be used as a guide for service planning on the system level.* In this model, ICOPSD can be divided according to high and low severity for each disorder, into high-high (Quadrant IV), low MH – high SA (Quadrant III), high MH – low SA (Quadrant II), and low-low (Quadrant I). High MH individuals usually have SPMI and require continuing integrated care in the MH system. High SA individuals are appropriate for receiving episodes of addiction treatment in the SA system, with varying degrees of integration of mental health capability.
3. *Empathic, hopeful, integrated treatment relationships are one of the most important contributors to treatment success in any setting; provision of continuous integrated treatment relationships is an evidence based best practice for individuals with the most severe combinations of psychiatric and substance difficulties.* The system needs to prioritize a) the development of clear guidelines for how clinicians in any service setting can provide integrated treatment in the context of an appropriate scope of practice, and b) access to continuous integrated treatment of appropriate intensity and capability for individuals with the most complex difficulties.
4. *Case management and care must be balanced with empathic detachment, expectation, contracting, consequences, and contingent learning for each client, and in each service setting.* Each individual client may require a different balance (based on level of functioning, available supports, external contingencies, etc.); and in a comprehensive service system, different programs are designed to provide this balance in different ways. Individuals who require high degrees of support or supervision can utilize contingency based learning strategies involving a

variety of community based reinforcers to make incremental progress within the context of continuing treatment.

5. *When psychiatric and substance disorders coexist, both disorders should be considered primary, and integrated dual (or multiple) primary diagnosis-specific treatment is recommended.* The system needs to develop a variety of administrative, financial, and clinical structures to reinforce this clinical principle, and to develop specific practice guidelines emphasizing how to integrate diagnosis-specific best practice treatments for multiple disorders for clinically appropriate clients within each service setting
6. *Both mental illness and addiction can be treated within the philosophical framework of a “disease and recovery model” (Minkoff, 1989) with parallel phases of recovery (acute stabilization, motivational enhancement, active treatment, relapse prevention, and rehabilitation/recovery), in which interventions are not only diagnosis-specific, but also specific to phase of recovery and stage of change.* Literature in both the addiction field and the mental health field has emphasized the concept of stages of change or stages of treatment, and demonstrated the value of stagewise treatment (Drake et al, 2001.)
7. *There is no single correct intervention for ICOPSD; for each individual interventions must be individualized according to quadrant, diagnoses, level of functioning, external constraints or supports, phase of recovery/stage of change, and (in a managed care system) multidimensional assessment of level of care requirements.* This principle forms the basis for developing clinical practice guidelines for assessment and treatment matching. It also forms the basis for designing the template of the CCISC, in which each program is a dual diagnosis program, but all programs are not the same. Each program in the system is assigned a “job”: to work with a particular cohort of ICOPSD, providing continuity or episode interventions, at a particular level of care. Consequently, all programs become mobilized to develop cohort specific dual diagnosis services, thereby mobilizing treatment resources throughout the entire system.
8. *Clinical outcomes for ICOPSD must also be individualized, based on similar parameters for individualizing treatment interventions.* Abstinence and full mental illness recovery are usually long term goals, but short term clinical outcomes must be individualized, and may include reduction in symptoms or use of substances, increases in level of functioning, increases in disease management skills, movement through stages of change, reduction in “harm” (internal or external), reduction in service utilization, or movement to a lower level of care. Systems need to develop clinical practice parameters for treatment planning and outcome tracking that legitimize this variety of outcome measures to reinforce incremental treatment progress and promote the experience of treatment success.

### 3. CERTIFICATION REGARDING LOBBYING

Title 31, United States Code, Section 1352, entitled "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions," generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non-appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs (45 CFR Part 93).

The undersigned (authorized official signing for the applicant organization) certifies, to the best of his or her knowledge and belief, that:

- (1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the under-

signed, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

- (2) If any funds other than Federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions. (If needed, Standard Form-LLL, "Disclosure of Lobbying Activities," its instructions, and continuation sheet are included at the end of this application form.)
- (3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

### 4. CERTIFICATION REGARDING PROGRAM FRAUD CIVIL REMEDIES ACT (PFCRA)

The undersigned (authorized official signing for the applicant organization) certifies that the statements herein are true, complete, and accurate to the best of his or her knowledge, and that he or she is aware that any false, fictitious, or fraudulent statements or claims may subject him or her to criminal, civil, or administrative penalties. The undersigned agrees that the applicant organization will comply with the Public Health Service terms and conditions of award if a grant is awarded as a result of this application.

**5. CERTIFICATION REGARDING ENVIRONMENTAL TOBACCO SMOKE**

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.
