

STATE OF HAWAII
REQUEST FOR SOLE SOURCE

04 SEP 10 P2:48

TO: Chief Procurement Officer

STATE PROCUREMENT OFFICE
STATE OF HAWAII

FROM: DLNR/State Parks
(Department/Division/Agency)

Pursuant to §103D-306, HRS, and Subchapter 9, Chapter 3-122, HAR, the Department requests sole source approval to purchase the following:

Description of goods, services, or construction:

The State Parks Reservation and Visitor Information System (SPRVIS) is an APPX based on-line system used by the District Parks offices on Oahu, Maui, Kauai and Hawaii to issue permits for camping, cabins, pavilions, special use and picnicking. SPRVIS was migrated from the Wang Speed II application in 2001 to the IBM SP2 at ICSD. The SPRVIS application and data will be cutover to the newly installed IBM Regatta hardware recently purchased by the Bureau of Conveyances. This migration will require acquisition and configuration of network and ~~peripheral hardware~~, upgrading APPX software to v4.3, and software modifications that will enhance and improve the issuance of permits and collection of fees statewide.

Name of Vendor:	The Lange Group	Cost:
Address:	1100 Ward Avenue, Suite 1050 Honolulu, HI 96814	\$200,000.00

Term of Contract:	From:	To:	Prior Sole Source Reference No.:
	10/1/04	9/30/05	02-28-J

The goods, services, or construction has the following unique features, characteristics, or capabilities:

SPRVIS was created in the late 1980s as a computerized data base reservation system for camping, lodging, picnicking, and special use permits at any of the more than 50 State Parks statewide. It currently resides on an IBM SP frame shared with the Bureau of Conveyances and managed by ICSD. It is a one-of-a-kind data base system with remote connections from ICSD's Honolulu site to sites on Hawaii, Kauai, and Maui. Migration to the new IBM Regatta hardware will require modifications to the APPX customized software. This arrangement with the Bureau to co-exist on their infrastructure has saved State Parks more than \$300,000.

REQUEST FOR SOLE SOURCE (Cont.)

How the unique features, characteristics, or capabilities are essential for the agency to accomplish its work:

This migration will increase State Parks efficiency in serving the public and its ability to generate revenue for its special fund. Enhancements (black list, single screen revision, single screen inquiry, special condition standardizations, park manifest, special use permits, etc.) to the APPX customized SPRVIS application will enable State Parks to expedite and improve the permit process. In addition, a new location at Hana (Wainapanapa), Maui will be established.

The following other possible sources for the goods, services, or construction were investigated but do not meet our needs because:

None. APPX is a proprietary software program.

Direct questions to: Karen Motosue [Signature] Phone: 587-0289

I certify that the information provided above is to the best of my knowledge, true, correct and that the goods, services, or construction are available through only one source.
