STATE PROCUREMENT OFFICE
NOTICE & REQUEST FOR SOLE SOURCE

1. TO: Chief Procurement Officer
2. FROM: Department of Health - EMSIPS Branch
Department/Division/Agency

Pursuant to §103D-306, HRS, and Subchapter 9, Chapter 3-122, HAR, the Department requests sole source approval to purchase the following:

3. Description of goods, services, or construction:

Transfer of existing Medical Communication "MEDICOM" radio circuits to the new microwave system currently being completed by the Honolulu City & County and Hawaii County.

4. Vendor Name: Pacific Wireless Communications, LLC

Address: 710 Kakoi Street
Honolulu, Hawaii 96819
(808) 837-4300

5. Price:

\$143,091.17

6. Term of Contract:
(mm/dd/yyyy)

From: March 15, 2007 ^{CPD} _{Approval} To: June 30, 2007

7. Prior Sole Source Ref No.

8. Feature: The good, service, or construction has the following unique features, characteristics, or capabilities: Pacific Wireless Communications is the only local radio telecommunications provider with the capability to meet the minimal qualifications necessary to successfully plan, develop, relocate and install the MEDICOM system onto the new county microwave systems. Minimal qualifications needed: 1) State of Hawaii C-15 Electrical Contractor's license; 2) Certified by the microwave radio manufacturer; 3) Demonstrate technical knowledge of the MEDICOM system & county microwave system; 4) Develop a redundant/parallel radio telecommunication system plan to protect the MEDICOM system to prevent any unwarranted emergency medical system radio failures or outages during the "cut-over".

9. Essential features. How the unique features, characteristics, or capabilities are essential for the agency to accomplish its work: Pacific Wireless Communications is the only local Motorola factory authorized service center with the technical experience and in-depth EMS operational knowledge of the microwave and simulcast system to relocate and reinstall existing equipment onto the new county microwave system. Because MEDICOM is critical to the welfare and care of patients needing timely coordinated 911 ambulance response and physician assisted medical direction, any radio communication failure due to inexperience and/or insufficient technical support would have a negative impact to the public's safety.

11. Alternate source. The following other possible sources for the good, service, or construction were investigated but do not meet our needs because: No other local radio communications company/provider has the technical support or is factory authorized to provide the necessary engineering support to do the MEDICOM microwave cut-over.
