STATE PROCUREMENT OFFICE NOTICE & REQUEST FOR SOLE SOURCE

- 1. TO: Chief Procurement Officer
- 2. FROM: Health / Adult Mental Health / Hawaii State Hospital
Department/Division/Agency

Pursuant to §103D-306, HRS, and Subchapter 9, Chapter 3-122, HAR, the Department requests sole source approval to purchase the following:

3. Description of goods, services, or construction:

Purchase, install and program hardware and software equipment furnished by SimplexGrinnell (See attached equipment list) for the Security Management System from Version 3.2 to C-cure 9000. The equipment to be purchased shall consist of the integrated alarm monitoring and graphical maps, and Simplex proprietary ISC-Intelligent System Controller as manufactured by Tyco International and SimplexGrinnell for response verification to include remaining doors designated by Hospital, power supplies, batteries and monitors that will be integrated into the existing system without compromising operational integrity, system maintenance and warranties. Installation and integration of Closed Circuit TV Surveillance System for rest of areas on campus requiring coverage as designated by Hospital.

NOTE: Price includes tax.

4. Vendor Name: SimplexGrinnell Address: 99-1379 Koaha Place Honolulu, HI 96701	5. Price: <u>\$1,403,825</u>
---	---------------------------------

6. Term of Contract: (mm/dd/yyyy) From: 08/01/07 <i>upon CPD Approval</i> To: 06/30/08	7. Prior Sole Source Ref No. _____
--	------------------------------------

8. Feature: The good, service, or construction has the following unique features, characteristics, or capabilities:

The closed circuit TV, the card access, locking and alarm monitoring system and the fire alarm system can be integrated into the same monitoring system because the hospital currently has a SimplexGrinnell proprietary system. This allows for single source integrated monitoring of Buildings/Units, Administration, E, F, H, I, K, S, T, U, RT Basement, alarms with campus wide live video verification, event log and historical backup through the server for the Security Management System. The installation of this equipment will also include the integration to the existing Simplex Intelligent System Controllers, for locking and database management of the access control and door alarms. The ISC or Simplex Intelligent System controller is only manufactured by Tyco International, and licensed certified service is only performed by SimplexGrinnell. The Simplex Fire alarm system that will release locked doors in the event of a fire, is also manufactured by Tyco International, and is under maintenance contract through SimplexGrinnell.

9. Essential features. How the unique features, characteristics, or capabilities are essential for the agency to accomplish its work:

Because of system integration, the response time will be greatly reduced and verification of all alarms will be done instantaneously. Once alarm is activated all information will be available for immediate response with video verification.

11. Alternate source. The following other possible sources for the good, service, or construction were investigated but do not meet our needs because:

Other systems investigated do not have the single source solution of a completely integrated Security Management System that eliminates the problem of responsibility in the event that one feature fails that could be integrated to the existing security management system.

12. Direct any inquiries to:
Department: Hawaii State Hospital
Contact Name/Title: William T. Elliott, Associate Administrator

13 Phone Number:
236-8275
Fax Number:
236-8774

Expenditure may be processed with a purchase order: Yes No If no, a contract must be executed and funds certified.

Agency shall ensure adherence to applicable administrative and statutory requirements.

14. ***I certify that the information provided above is to the best of my knowledge, true, correct and that the goods, services, or construction are available through only one source.***

Submit written objections to this intent to issue a sole source contract within seven calendar days or as otherwise allowed from the above posted date to: Chief Procurement Officer
State Procurement Office
P.O. Box 119
Honolulu, Hawaii 96810-0119

16. Chief Procurement Officer's comments:

This approval is based on the manufacturer's proprietary software that is required for Security Management System upgrades.
