# STATE PROCUREMENT OFFICE NOTICE & REQUEST FOR SOLE SOURCE

- 1. TO: Chief Procurement Officer
- 2. FROM: Health/State Laboratories Division  
Department/Division/Agency

Pursuant to §103D-306, HRS, and Subchapter 9, Chapter 3-122, HAR, the Department requests sole source approval to purchase the following:

3. Description of goods, services, or construction:  
 Qiagen Extraction kits for RNA, DNA, Blood DNA, RNeasy, One-Step Reverse Transcriptase (RT)- PCR (Polymerase Chain Reaction), Quantitect Probe RT-PCR kits, DNA PCR kits and other peripheral consumables and accessories.

4. Vendor Name: . Address: Qiagen Sciences, Inc. 19300 Germantown Road Germantown, MD 20874	5. Price: \$300,000Est
6. Term of Contract: (mm/dd/yyyy) From: <u>Upon CPO Approval</u> To: <u>12 Months</u>	7. Prior Sole Source Ref No. <u>08-042-J</u>

8. Feature: The good, service, or construction has the following unique features, characteristics, or capabilities: Qiagen extraction kits, One-step RT (Reverse-Transcriptase)-PCR kits, Quantitect Probe RT-PCR kits, DNA PCR kits and consumables for DNA extraction and other peripheral accessories are used in the performance of manual nucleic acid extraction of microbial agents from clinical samples such as blood, stools, and from recovered bacterial isolates. Extraction kits are selected based on their performance characteristics such as sensitivity and their ability to overcome the inhibitory effects of some organic compounds in the clinical or environmental samples. Our validation studies showed that Qiagen extraction kits perform well and have consistently demonstrated good sensitivity. Moreover, since we are part of the National Laboratory Response Network (NLRN), we are required to perform standardized Qiagen extraction protocols by the CDC for the detection of BT agents to ensure that our results are comparable with other LRN labs.

9. Essential features. How the unique features, characteristics, or capabilities are essential for the agency to accomplish its work: Molecular testing of clinical specimens ( human and animal), environmental, food and drinking water samples have been developed by National Reference Laboratories such as the CDC, NVSL and FDA for Public Health Laboratories. These molecular methods, such as the real-time (rti) PCR provide a rapid way to screen for microbial threat agents such as Human and Avian Flu virus, NoroVirus, B. pertussis/parapertussis, and a number of BT agents and toxins such as Ricin toxins. Qiagen extraction protocols provide a more sensitive and reliable way of extracting DNA or RNA from the sample. Given that molecular testing utilizes microliters of samples and considering that samples generally contain inhibitory substances, extreme sensitivity in extracting bacterial/viral nucleic acid is critical to ensure a good PCR assay. Additionally, National Reference Labs ( CDC, NVSL, FDA) have conducted numerous Multi-Lab Validation projects using Qiagen protocols and Qiagen has consistently demonstrated good performance characteristics in those validation.

11. Alternate source. The following other possible sources for the good, service, or construction were investigated but do not meet our needs because: There are no alternate sources.

12. Direct any inquiries to:

Department: Health  
 Contact Name/Title: Rebecca H. Sciulli-BT Microbiologist & Coord.

13 Phone Number:

453-5993

Fax Number:

453-5995

Expenditure may be processed with a purchase order: Yes  No  If no, a contract must be executed and funds certified.

Agency shall ensure adherence to applicable administrative and statutory requirements.

14 I certify that the information provided above is to the best of my knowledge, true, correct and that the goods, services, or construction are available through only one source.

  
 Department Head

Date

Reserved for SPO Use Only

15 Date Notice Posted: 9/18/08

Submit written objections to this intent to issue a sole source contract within seven calendar days or as otherwise allowed from the above posted date to:

Chief Procurement Officer  
 State Procurement Office  
 P.O. Box 119  
 Honolulu, Hawaii 96810-0119

16. Chief Procurement Officer's comments:

Sole source contracts in excess of \$100,000 require cost or pricing data pursuant to subchapter 15, Chapter 3-122, HAR. Questions on this issue may be directed to SPO staff at 586-0577.

17.

APPROVED     DISAPPROVED     NO ACTION REQUIRED

**Qiagen**

Quantitect Probe RT-PCR Kit Cat. # 204443  
One Step RT-PCR Kit Cat. # 210212 or 210210  
QIAamp Viral RNA Mini Kit Cat. # 52904 and Cat. # 52906  
Extension Tubes Cat. # 19587  
VacConnectors Cat. # 19407  
Vacuum Regulator Cat. # 19530  
QIAvac Connecting System Cat. # 19419  
QIAvac 24 Plus 19413  
VacValves Cat. # 19408  
Buffer AW1 Cat. # 19081  
Buffer AW2 Cat. # 19072  
QIAamp Min Elute Virus Spin Kit Cat. # 57704  
QIAmp DNA Blood Mini Kit Cat. # 51104  
2 ml Collection Tubes Cat. # 19201  
QIAmp DNA Easy Mini Kit Cat. # 51304  
QIAmp DNA Mini Kit Cat # 51304  
Qiagen RNeasy Extraction Kit Cat. # 74103 or 74104 or 74106
