

STATE OF HAWAII
REQUEST FOR SOLE SOURCE

03 JUL 30 P12:57

TO: Chief Procurement Officer

STATE PROCUREMENT OFFICE
STATE OF HAWAII

FROM: HEALTH/DISEASE OUTBREAK DIVISION/DISEASE INVESTIGATION BRANCH;
ENVIRONMENTAL HEALTH/HAZARD EVALUATION & EMERGENCY RESPONSE BRANCH &
COMMUNICABLE DISEASE DIVISION/STD/AIDS PREVENTION BRANCH
(Department/Division/Agency)

Pursuant to §103D-306, HRS, and Subchapter 9, Chapter 3-122, HAR, the Department requests sole source approval to purchase the following:

Description of goods, services, or construction:
 Modification of vendor software system (eLink) to facilitate electronic linkage between the Department of Health, Diagnostic Laboratories of Hawaii and Tripler Army Medical Center. This linkage allows timely and accurate laboratory reports in Health-Level 7 (laboratory data language) and ensures rapid investigation and dissemination of the infectious disease information to appropriate programs as required by law. This is a refinement of a system created by Eclipsys Corporation. This will create one source of laboratory data storage at the Department of Health and create an electronic means for disseminating the data to respective programs and departments.

In order to create this system it is intended to encompass three (3) separate contracts between Eclipsys and the above mentioned branches.

Name of Vendor: Eclipsys Solutions Corporation	Cost:
Address: 1750 Clint Moore Road Boca Raton, FL 33487	\$205,000

Term of Contract: From: July 15, 2003 <i>Date of Approval</i>	To: June 30, 2004	Prior Sole Source Reference No.:
---	-------------------	----------------------------------

The goods, services, or construction has the following unique features, characteristics, or capabilities:
 This is the modification phase of data integration and infectious disease surveillance for the Disease Outbreak Division. Previous work preformed by this contractor is operational; however, new developments and progress in web-transfer of surveillance data in a secure format is being requested by the Centers for Disease Control, and is currently being designed by Eclipsys Solutions Corporation. The contractor has maintained and developed the prototype and DOH currently has federal funds for this project.

REQUEST FOR SOLE SOURCE (Cont.)

How the unique features, characteristics, or capabilities are essential for the agency to accomplish its work:

Modifications to current system are necessary to comply with CDC requests. This system enables the Department of Health to gather information and respond to infections disease reports in an expedient manner. This prevents potential outbreaks of infectious disease among people in Hawaii.

The following other possible sources for the goods, services, or construction were investigated but do not meet our needs because:

This software product, which was developed by Eclipsys Corporation is being used by CDC for their national reporting system. Other sources, if available, would have to build on the software developed by Eclipsys Corporation and would cost the DOH additional funds and time to "upgrade" the current system. This software is in keeping with the standards prescribed by the Centers for Disease Control and the Council of State and Territorial Epidemiologists in electronic reporting of communicable diseases.

Direct questions to: Myra Ching-Lee Phone: 587-6589

I certify that the information provided above is to the best of my knowledge, true, correct and that the goods, services, or construction are available through only one source.

Denise Kadokura 7-28-03
 Department Head or Designee Date

Deputy Director
 Title (If other than Department Head)

Chief Procurement Officer's comments:

In discussion with your agency personnel, we understand that subject software (eLink) is proprietary to the vendor, and the initial software was competitively procured. System modifications to software can only be done with the vendor, as the developer of the prototype. Therefore approval is granted.

Note: Section 3-122-81(j), HAR, provides a list of sole source procurements that may be procured without obtaining CPO approval. Attached is the list, item 4, to which your request is applicable. If any questions on this matter, contact SPO staff at 586-0567.

Please ensure adherence to applicable administrative and statutory requirements.

Expenditure may be processed through a purchase order: Yes No If no, a contract must be executed and funds certified.

APPROVED DISAPPROVED

EXHIBIT B

PROCUREMENTS APPROVED FOR SOLE SOURCE
(06/21/99)

The following procurements are not subject to the chief procurement officer's approval:

Sole
Source
Number

Sole Source

1. Rental of booth space for exhibits at conventions and trade shows when organized by a single sponsor.

Criteria: When rental is available only through a single organizer or sponsor of the convention or trade show.

2. For the repair, replacement, installation (connection, activation or hookup), or relocation of public utility company equipment or facilities.

Criteria: When the equipment or facilities are owned or controlled by utility companies such as an electric, telephone, gas, or cable television company.

3. Annual license renewal and maintenance for computer software.

Criteria: When the license renewal and maintenance can be obtained from only a single source, normally the developer of the software.

4. Procurement of computer software conversions, modifications, and maintenance for existing programs from the manufacturer of the software.

Criteria: When the conversion, modification, or maintenance can only be obtained from the manufacturer of the software.

STATE OF HAWAII NOTICE OF SOLE SOURCE

The Chief Procurement Officer is in the process of reviewing the request from the Department of Health for the sole source purchase of the following goods, services, or construction:

Modification of vendor software system (eLink) to facilitate electronic linkage between the Department of Health (DOH) Disease Outbreak Control Division, Diagnostic Laboratories, and Tripler Army Medical Center. The purpose of the linkage is to receive timely and accurate laboratory reports in Health-Level 7 (laboratory data language) and to ensure rapid investigation and dissemination of the communicable disease information to appropriate programs as required by law. This is a refinement of an existing system created by Eclipsys Solutions Corporation. This will create one source of laboratory data storage at the Department of Health and create an electronic means for disseminating the data to respective programs and departments.

In order to create this system it is intended to encompass (3) separate contracts between Eclipsys and the following:

- Disease Outbreak Division/Disease Investigation Branch
- Environmental Health/Hazard Evaluation & Emergency Response Branch
- Communicable Disease Division/STD/AIDS Prevention Branch
