

## **RFP DLIR/WDD 2014-4: Addendum #2**

### **ETF Macro**

**March 19, 2014**

**A. The original language and amended language are provided below.**

1) Page: 4-2, Section 4.3.A.2.Bullet point #10

Original bullet point:

- *Letter of Support and Evidence of in-kind matching from partners*

Amended bullet points:

- *Letter(s) of support from target industry or other relevant organizations*
- *Evidence of in-kind matching of at least 50% of budget requested*

Original language implied that matching must be derived from solely from partners providing letter of support. Letters of support in combination with in-kind matching from partners reinforces their level of commitment to the proposal. However, it is ultimately up to the applicant as to how they will demonstrate the 50% minimum in-kind matching funds for their proposal.
