# **Service Specifications**

## 2.1 Introduction

### A. Overview, purpose or need

The Adult Mental Health Division (“DIVISION”) of the Hawaii State Department of Health (“DEPARTMENT”) is responsible for coordinating public and private human services into an integrated and responsive delivery system for mental health needs. Provision of direct services to consumers in the public sector is offered through programs offered by the Community Mental Health Centers (“CENTERS”) and the Hawaii State Hospital (“HOSPITAL”). In addition, the DIVISION contracts on a purchase of service basis with private providers for mental health services to supplement the efforts of the CENTERS and the HOSPITAL.

For purposes related to this RFP, the basic functions or responsibilities of the DIVISION include:

10. Handling unresolved consumer grievances and appeals with the providers;

### B. Planning activities conducted in preparation for this RFP

The DIVISION published a Request for Information on August 26, 2014, seeking the public’s input on the design of this service for statewide services, the availability of potential service providers, staffing capabilities for services and culturally specific service capabilities.

**C. Description of the goals of the service**

Hawai'i's adult mental health service delivery system is based on the concept of recovery, that consumers can lead fulfilling lives even in the presence of a severe and persistent mental illness. Services are focused on the need of the individual, not only on symptom relief and stabilization, but on consumer empowerment and the skills needed to lead satisfying, hopeful and contributing lives.

The goals for the services described in this RFP include, but are not limited to:

1. Providing a structured, focused programming based on evidence based practices (“EBP”) to decrease admission to more restrictive levels of care.
2. Providing treatment, education and skills, building for maintaining safe and productive community tenure for DIVISION consumers.
3. Increasing consumer independence and decrease services needed over time.

**D. Description of the target population to be served**

Adults, 18 years and older, with severe and persistent mental illness who meet DIVISION eligibility criteria.

**E. Geographic coverage of service**

Statewide.

Organizations may apply for one (1) or more counties. Providers who wish to apply to provide the service array in more than one (1) county must demonstrate the ability to successfully manage and monitor services, both clinically and administratively, across distances and geographic boundaries. A multi-county provider shall need to have, or have developed prior to implementation, standardized policies and procedures across counties in order to ensure consistent application of the scopes of service.

**F. Probable funding amounts, source, and period of availability**

The source of funding is state funds or a combination of state and federal funds. Both profit and non-profit organizations are eligible for state funds. Please note that based on the availability of funds, the amount allocated to providers who are awarded contracts may change.

The DIVISION considers itself the payer of last resort, and expects applicants to seek and obtain third party reimbursement as applicable. The DIVISION gives

priority to the uninsured. (See section on Financial Requirements, Third Party Liability.)

If a provider materially fails to comply with terms and conditions of the contract, the DIVISION may, as appropriate under the circumstances:

1. Temporarily withhold new referrals pending correction of a deficiency or a non-submission of a report by a provider.
2. Disallow all or part of the cost.
3. Restrict, suspend or terminate the contract.

In the event that additional funds become available for similar services, the DEPARTMENT reserves the right to increase funding amounts, drawing from other possible funding sources, such as state or federal grants.

From time to time, the DIVISION may seek outside funding opportunities to transform its existing public mental health services into an improved system of care. Providers of this service may be asked to participate in these opportunities, with funding sources to include, but not be limited to, federal, state, county, and private foundations.

Competition is encouraged among as many applicants as possible.

## **2.2 Contract Monitoring and Evaluation**

The criteria by which the performance of the contract will be monitored and evaluated are:

- (1) Performance/Outcome Measures
- (2) Output Measures
- (3) Quality of Care/Quality of Services
- (4) Financial Management
- (5) Administrative Requirements

The DIVISION shall describe the information that is to be provided and explain the procedures to be followed through the DIVISION staff and in its printed material. The provider shall also explain the information and the procedures to be followed by the consumers during the orientation process.

It is expected that not all consumers will remember to or be able to provide information on changes to their status. Therefore, it is important for the provider to obtain and forward such information to the DIVISION on a timely basis and inform the consumer of his/her responsibility to report changes to their case manager.

The provider shall notify each case manager and the DIVISION of changes in consumer status by faxing the information to UM within five (5) calendar days of discovery.

The provider shall bill the DIVISION only after exhausting the third party denial process, when the service is not a covered benefit or when the consumer is uninsured. The provider shall maintain documentation of denials and of limits of benefit coverage and make these records available to the DIVISION upon request. The DIVISION is the payor of last resort and the provider shall consider payment from third party sources as payment in full. An annual review and reconciliation of amounts collected from third party payors by the provider will be conducted and, if needed, adjustments will be made within ninety (90) days either crediting the DIVISION or providing payment to the provider upon the receipt of the claim.

The provider shall:

- 1) Provide a list of service expenses, in the format requested by the DIVISION, for recovery purposes.

The provider shall promptly report in writing to the DIVISION instances in which suspected fraud has occurred within thirty (30) days of discovery. The provider shall provide any evidence it has on the suspicious billing practices (unusual billing patterns, services not rendered as billed and same services billed differently and/or separately). If the billing has not been done appropriately and the provider does not believe the inappropriate billing meets the definition of fraud (i.e., no intention to defraud), the provider shall notify the DIVISION in writing of its findings, adjustments made to billings, and education and training provided to prevent future occurrences.

Any suspected case of physical, emotional or financial abuse or neglect of a consumer who is a dependent adult must be reported by the provider to Adult Protective Services, or of a child to Child Welfare Services, and to the DIVISION immediately upon discovery.

- i. All reimbursements for services shall be subject to review by the DIVISION or its agent(s) for medical necessity and appropriateness, respectively. The DIVISION or its agents shall be provided access to medical records and documentation relevant to such a review and the provider agrees to provide access to all requested medical records/documents. It is the responsibility of the provider to ensure that its subcontractors and providers also provide DIVISION and its agents access to requested medical records/documents. Reimbursements for services deemed not medically necessary or not following billing guidelines by the DIVISION or its agent shall be denied. Reimbursements received by providers for consumers with third party coverage (including consumers with Medicaid and/or Medicare) will be considered full payment (see Section 2.3A11.g.). Claims for payment received after three hundred sixty-five (365) calendar days of the date of service shall be denied for exceeding the filing deadline.
- l. When submitting Claims and/or Encounter Data, the provider shall: (a) use the most current coding methodologies on all forms; (b) abide by all applicable coding rules and associated guidelines as allowed by Federal/State law, including without limitation, inclusive code sets; and (c) agree that regardless of any provision or term in the contract, in the event a code is formally retired or replaced, the provider shall discontinue use of such code and begin use of the new or replacement code following the effective date published by the American Medical Association. Should a provider submit claims using retired or replaced codes, the provider understands and agrees that the DIVISION may deny such claims until appropriately coded and resubmitted.
12. The provider shall have current, valid licenses and certificates, as applicable, in accordance with federal, state and county regulations, and all applicable Hawaii Administrative Rules, and provide copies to the DIVISION, as requested.

The provider shall maintain in effect this liability insurance until the State has certified that the provider's work under the contract has been completed satisfactorily.

Prior to or upon execution of the contract, the provider shall obtain a certificate of insurance verifying the existence of the necessary insurance coverage in the amounts stated above. The parties agree that the certificate of insurance shall be attached and be made a part of the contract.

Prior to or upon execution of this Contract, the PROVIDER shall obtain a certificate of insurance verifying the existence of the necessary insurance coverage in the amounts stated above. The parties agree that the certificate of insurance shall be attached hereto as Exhibit " " and be made a part of this Contract.

Each insurance policy required by this Contract shall contain the following clause:

It is agreed that any insurance maintained by the State of Hawaii will apply in excess of, and not contribute with, insurance provided by this policy.

The general liability and automobile liability insurance policies required by this Contract shall contain the following clause:

The State of Hawaii and its officers and employees are additional insured with respect to operations performed for the State of Hawaii.

The certificate of insurance shall indicate these provisions are included in the policy.

The PROVIDER shall immediately provide written notice to the contracting department or agency should any of the insurance policies evidenced on its certificate of insurance forms be cancelled, limited in scope, or not renewed upon expiration.

If the scheduled expiration date of the insurance policy is earlier than the expiration date of the time of performance under this Contract, the PROVIDER, upon renewal of the policy, shall promptly cause to be provided to the STATE an updated certificate of insurance.

8. If this Contract is terminated with cause or without cause or at the scheduled expiration of the time of performance specified in this Contract, all equipment and unused supplies and materials leased or purchased with funds paid to the PROVIDER under this Contract shall become the property of the STATE as it so specifies and shall be disposed of as directed by the STATE.

9. Option to Extend Contract. Unless terminated, this Contract may be extended by the STATE for specified periods of time not to exceed five (5) years or 60 months or for not more than five (5) additional twelve (12) month periods or 60 months, upon mutual agreement and the execution of a supplemental agreement. This Contract may be extended provided that the Contract price shall remain the same or is adjusted per the Contract Price Adjustment provision stated herein. The STATE may terminate the extended agreement at any time in

accordance with General Conditions no. 4.

10. Contract Price Adjustment. The Contract price may be adjusted prior to the beginning of each extension period and shall be subject to the allotment and availability of state and special funds.

11. Audit Requirements.

a. Nonprofit organizations that expend \$500,000 or more in a year of federal funds from any source shall have a single audit conducted for that year in accordance with the Single Audit Act Amendments of 1996, Public Law 104-156.

b. If the preceding condition applies, the PROVIDER shall conduct a financial and compliance audit in accordance with the guidelines identified in Exhibit “ ,” attached hereto and made a part hereof. Failure to comply may result in the withholding of payments to the PROVIDER.

c. Nonprofit organizations that expend less than \$500,000 a year in federal funds are exempt from federal audit requirements for that year, however, records shall be available for review or audit by appropriate officials of the federal awarding agency, the STATE, or General Accounting Office.

d. If the PROVIDER is exempt from federal audit requirements in accordance with subparagraph c., above, the cost of any audit conducted on behalf of the PROVIDER shall not be charged to the federal portion of this Contract.

12. Language Access. The PROVIDER shall comply, as a covered entity, with the provisions of chapter 321C, Hawaii Revised Statutes, regarding language access; and with federal law regarding language access, Title VI of the Civil Rights Act of 1964, 42 USC section 2000d et seq., and 45 CFR part 80. These laws require the PROVIDER to, among

other things, link clients and their families with interpreter services if, on account of national origin, clients and their families do not speak English as their primary language and identify themselves as having a limited ability to read, write, speak, or understand the English language.

13. The PROVIDER shall have bylaws or policies that describe the manner in which business is conducted and policies that relate to nepotism and management of potential conflicts of interest.

## **AMHD PRACTICE GUIDELINES PHILOSOPHY**

## ADULT MENTAL HEALTH DIVISION PRACTICE GUIDELINES PHILOSOPHY

In efforts to ensure that service delivery within the Adult Mental Health Division (AMHD) service system is in line with AMHD's Guiding Principles, "The AMHD Practice Guidelines Philosophy," was developed by the AMHD Clinical Operations Team with broad input from stakeholders. This document serves as a bridge between principles and practice. It is not meant to be an exhaustive list, rather to assist in operationalizing some of the Guiding Principle's concepts.

Similarly, the "Psychopharmacology Practice Guidelines for Individuals with Co-Occurring Substance Abuse (SA) And Serious Mental Illness (SMI)," was created to provide some system guidelines for consistent prescribing practices within the AMHD service system. In addition to providing guidelines and practice standards, it also provides resources and information of special interest for prescribing personnel. The "Psychopharmacology Practice Guidelines for Individuals with Co-Occurring Substance Abuse (SA) And Serious Mental Illness (SMI)," can also be used as an orientation document for new physicians entering the AMHD system of care.

**AMHD Practice**

**Guidelines**

## AMHD Practice Guidelines:

### **1. Employ a Recovery Perspective**

- a. People with mental illness can and do overcome the barriers and obstacles that confront them.
- b. Recovery is a long term process which is self-directed by the consumer, who defines his or her life goals and designs a unique path towards these goals.
- c. The role of the worker is to facilitate and support the consumer in their recovery and encourage the consumer to participate in all decisions that would affect his or her life.

### **2. Consumer Engagement**

- a. Engage the consumer in a warm, empathic manner.
- b. Include trained peer support, when appropriate.
- c. Partner with the consumer by attending to their strengths, needs, treatment preferences, experiences, and cultural background.

### **3. Cultural Competency**

- a. In the building of a therapeutic alliance, recognize that culture (which includes gender, ethnicity, sexual orientation, religion, language, etc) plays a significant role in enhancing engagement. Engagement influences how comfortable consumers are with seeking help, who they seek help from, what types of help they seek, what coping styles and social supports they have. This influences how they view the problem and solutions, and how much stigma they attach to mental illness.

### **4. Service Provision**

- a. Where available, services should be based on evidence based practices, best practices and recognized consensus panel recommendations
- b. Assessments should be timely and include a comprehensive and holistic approach.
- c. Treatment should be informed by the assessment and customized according to consumer preferences, needs, stage of change, and other factors, such as legal, spiritual, cultural, etc.
- d. Treatment is a team process. It is dynamic and constantly shifting. No one should feel solely responsible or isolated in the process. All members of the team interact and mutually collaborate in providing inter-disciplinary interventions for the benefit of the consumer.
- e. Individuals are inherently complex and multi-dimensional. Therefore treatment should be tailored to expect Co-Occurring Conditions (substance use, trauma etc). Understanding and support of influencing vital dimensions is necessary in providing effective intervention.
- f. Teams should identify and contact other providers currently or previously providing services to the consumer, and use that information to better inform the current plan.
- g. Treatment is not a linear progression (i.e., hospitalization to specialized residential to 24 hr. group home to supported housing). Rather, they are all options, which can be tailored to best “fit” the consumer’s situation.

- h. Teams should include, whenever possible, the natural supports. Strengthening the consumers family and significant others may strengthen the consumers recovery.
- i. Teams should teach, implement, and monitor (in accordance with standard fidelity measures, if applicable) evidence based practice, best practices, and/or promising practices.
- j. Teams must consider and address safety concerns throughout treatment and ensure that pre-crisis interventions are documented and in place.

## **5. Continuity of Care**

- a. Caseworkers must ensure proper follow through and not leave it up to the consumer or the “other system”. The key for the case worker is to stay involved in the process and to provide key information such as medication updates, what worked in the past, contact information, etc.
  - i. For example, with regard to crisis, did the consumer make it to the emergency room? If so, what was the disposition? Another example could be arranging for the consumer to attend a Clubhouse interview. What would the consumer need to attend the interview? Transportation? Bus instructions? Prompting on how to ask for services, etc.
- b. In referring to other programs, the caseworker must continue active involvement and function as an integral part of the team.
- c. Workers should obtain support and consultation whenever needed (who to ask? how to contact? who serves as back up? etc)

## **6. Documentation**

- a. Documentation must be recovery focused by using person first language and avoiding generalizations that are judgmental (e.g., “non-compliant”, “resistant”). This language style tends to reinforce beliefs that the consumer needs to do what we want them to do rather than viewing ourselves as partners.
- b. Use descriptions that focus on conveying clinically useful information. For example, instead of the term “medication non-compliance”, consider descriptions such as, “Consumer often forgets to take their medication”, “Consumer does not use the medication because of uncomfortable side-effects”, etc.
- c. Documentation effectiveness can be enhanced when stages and stage appropriate interventions are utilized. (e.g. “Individual is pre-contemplative in acceptance of illness, however is in action stage in taking their meds. Therefore will work on increasing their understanding of the medications and proper administration.” In this case, they don’t necessarily have to accept that they have a mental illness to effectively take their medications.

## **7. Crisis**

- a. The goal of crisis intervention is to decrease self-harm or dangerousness and movement toward self-regulation.
- b. The QMHP should be actively involved throughout the process by, a) being consulted during and at the resolution of the situation; b) reviewing and

- approving the outcomes of the interventions; and c) ensuring appropriate debriefing to improve the process and support those involved.
- c. Documentation of consultations are an effective way of establishing community standards of practice and mediating risk.
  - d. Documentation should include the nature of the crisis (e.g. crisis antecedents), the assessment of the risks, interventions used, and the rationale for final disposition (e.g., “Hospitalization was considered, however the consumer included his family in the intervention of which the family agreed to provide 24 hour supervision and will call Dr. K for assistance, if needed”).
  - e. The caseworker should ensure proper follow-up, which is documented and including in the consumers record (e.g., where is the consumer now? What can we do the next time to prevent a crisis? What can the consumer do?).

## **8. Co-Occurring Disorders**

- a. Dual diagnosis is an expectation, not an exception
- b. All ICOPSD are not the same; the national consensus four quadrant model for categorizing co-occurring disorders (NASMHPD, 1998) can be used as a guide for service planning on the system level.
- c. Empathic, hopeful, integrated treatment relationships are one of the most important contributors to treatment success in any setting; provision of continuous integrated treatment relationships is an evidence based best practice for individuals with the most severe combinations of psychiatric and substance difficulties.
- d. Case management and care must be balanced with empathic detachment, expectation, contracting, consequences, and contingent learning for each client, and in each service setting
- e. When psychiatric and substance disorders coexist, both disorders should be considered primary, and integrated dual (or multiple) primary diagnosis-specific treatment is recommended
- f. Both mental illness and addiction can be treated within the philosophical framework of a “disease and recovery model” (Minkoff, 1989) with parallel phases of recovery (acute stabilization, motivational enhancement, active treatment, relapse prevention, and rehabilitation/recovery), in which interventions are not only diagnosis-specific, but also specific to phase of recovery and stage of change
- g. There is no single correct intervention for ICOPSD; for each individual interventions must be individualized according to quadrant, diagnoses, level of functioning, external constraints or supports, phase of recovery/stage of change, and (in a managed care system) multidimensional assessment of level of care requirements.
- h. Clinical outcomes for ICOPSD must also be individualized, based on similar parameters for individualizing treatment interventions.

## **9. Supervision**

- a. Clinical supervision teams should routinely review cases.
- b. In addition to “as needed supervision”, caseworkers should have access to timely, routine supervision, and opportunities for continued skill development.

- c. Supervisors should establish agreed upon competencies with each supervisee and routinely document supervision outcomes as part of the quality improvement process.

## **Psychopharmacology Practice Guidelines**

## **Psychopharmacology Practice Guidelines For Individuals With Co-Occurring Substance Abuse (SA) And Serious Mental Illness (SMI)**

### ***Overview***

The results of the most recent national household survey found that there are:

- 17 1/2 million people with serious mental illness (SMI) in the United States, or
- 8.3% of the population (SAMHSA, 2002). Of these:
  - 5 million or, 28.9% of the SMI, had used an illicit drug in the previous year
  - SMI use illicit drugs at more than twice the rate of non-SMI
  - Four million, or 22.2% of all SMI, had a substance use disorder
  - 11.1 were heavy alcohol users (compared to 8.1% of non-SMI)
  - Adults with nicotine dependence were 1.5 times as likely to have SMI
- Of people in the general population with a substance use disorder, 20.4% were SMI.

In Hawaii, the Adult Mental Health Division has found that approximately 53% of the population it has screened has experienced problems as a result of substance use.

The comorbidity of schizophrenia and SA is of particular concern. While relatively infrequent prior to 1960, there is now a 70-80% lifetime incidence of a substance use disorder in people with schizophrenia.

In summary, there is a high rate of comorbidity between SMI and SA.

### ***General principles of treatment in a drug abusing, seriously mentally ill population:***

#### **Issues Related to Screening and Diagnosis**

- Diagnostic assessment of individuals with co-occurring disorders is based ideally on obtaining an integrated, longitudinal, strength-based history, which incorporates a careful chronological description of the individual's functioning, including emphasis on onset, interactions, effects of treatment, and contributions to stability and relapse of both disorders at each point in time. Particular focus is on assessing either disorder during periods of time when the other type of disorder is relatively stable. Obtaining information from family members, previous providers, and collateral caregivers is important.
- Initial psychopharmacologic assessment in mental health settings does not require consumers to be abstinent. It should occur as early in treatment as possible, and incorporate capacity to maintain existing non-addictive psychotropic medications during detoxification and early recovery.
- Substance abusers will often deny their substance abuse problems and blame their symptoms on the mental illness. Bipolar disorder in particular may be over diagnosed in a substance abusing population due to the fact that mental status can appear to cycle as a result of intermittent substance abuse. For example, stimulant (cocaine and methamphetamine) abuse can mimic manic episodes, and the "crash" that occurs when a stimulant effect ends can mimic depression.
- Families often blame psychotic symptoms on substance abuse when none is present. Families may not want to accept that their relative has a chronic psychosis. Furthermore,

patients can be delusional about their substance use, reporting using drugs, or being drugged, when this has not occurred.

- Abuse of more than one substance is common.
- Because of the high rate of comorbidity, the evaluator should maintain concern and vigilance when working with an individual with SMI. Urine drug analysis (UDA) may be useful. UDAs are not used as an intrusive or punitive tool, but rather to develop psychotherapeutic intervention/approaches. Examples are:
  - As a tool for ongoing monitoring and feedback and use of motivational techniques to increase readiness for change
  - To encourage and/or reinforce reduction in use or abstinence (i.e. rewarding clean UDAs)
  - Tailoring the treatment approach
  - Diagnostic purposes which would impact on course of illness/treatment

#### Issues Related to Treatment

- Psychopharmacology alone is inferior to combined psychopharmacologic and psychosocial therapies.
- Motivational enhancement approaches have been shown to be more effective than confrontational or punitive approaches, and are preferred when combining psychotherapy with psychopharmacology.
- Abusers may attempt to abuse any medication including anti-psychotic, anti-anxiety, and anti-depressant medications. Thus, medication adherence is a significant issue during times of substance abuse.
- For diagnosed psychiatric illness, the individual should receive the most clinically effective psychopharmacologic strategy available, regardless of the status of the comorbid substance disorder.
- Substance abusers are less likely to adhere to antipsychotic regimens. Depot neuroleptic medications are used more often in the SA/SMI population, likely due to adherence issues. For patients who do adhere to antipsychotic medications, there is evidence that substance abuse is lessened.
- Treatment of the severely mentally ill with dependency producing drugs is risky, especially in the long-term. Whenever possible, it is best to avoid the use of:
  - Opioids and muscle relaxants for chronic pain
  - Stimulants for attention deficit disorder
  - Benzodiazepines for bipolar disorder or anxiety
  - Barbiturates for chronic headaches
- If an outside physician persists in prescribing dependency-producing drugs to your consumer with mental illness, consultation with an addiction specialist may help in negotiating with the outside physician. (See below for consultation resources)
- Any consideration or consumer attempts to reduce substance use or achieve/maintain abstinence should be encouraged. Illicit drug use should not be condoned or minimized.

*Psychopharmacologic treatment principles:*

1. Acute **intoxication**: in general, it is best to let the effects of the intoxicating drugs wear off rather than manage these effects with another drug. If the patient is behaviorally out of control, it may be necessary to send the patients to an emergency room for treatment.
2. Treatment of dependence for **opioids, sedatives, alcohol, and stimulants** requires **detoxification**. Social detoxification is the treatment of choice for stimulants and may be satisfactory for the other classes of substances listed here. For significant levels of dependence however, detoxification can occur safely and comfortably using medication for sedative, alcohol, and opioid dependence if the proper structured environment is available. For high levels of sedative and alcohol dependence, withdrawal can be dangerous. A higher level of care other than outpatient (e.g. acute care, LCRS or partial hospital) may need to be considered. Consultation with an addiction specialist is recommended when evaluating for and performing medical detoxification.
3. A number of treatments are available to minimize and prevent substance abuse. Some treatment considerations are:
  - **Opioid Dependence**: The treatment of opioid dependence, either with detoxification or maintenance therapy, in the past has only been allowed by specially licensed treatment programs such as methadone maintenance clinics for outpatients. Now it is possible for any physician who holds a special narcotics license to use the new sublingual formulation of buprenorphine (Suboxone) to treat opioid dependence. Buprenorphine is a partial agonist with very high affinity for the mu opioid receptor. Because of its ceiling effect, it is relatively safe in overdose, and it can detoxify faster than methadone with milder withdrawal symptoms. The patient must be on the equivalent of 30 mg methadone or less, however, before taking it or it may cause withdrawal symptoms because it will replace the offending opioid on the mu receptor without stimulating it as much. The American Academy of Addiction Psychiatrists offers information about buprenorphine and an online course at: "<http://www.aaap.org/buprenorphine/buprenorphine.htm>"  
The American Psychiatric Association also offers this information at: [http://www.psych.org/edu/bup\\_training.cfm](http://www.psych.org/edu/bup_training.cfm)
  - **Alcohol**: The medication most used with the SMI population is disulfiram (Antabuse). A retrospective review showed that treatment with 250 mg daily appears to be effective and well tolerated and associated with reasonable compliance. Reports of disulfiram induced psychosis exist and but they appear to be rare in the United States and are associated with high doses. The theoretical exacerbation of psychosis does not appear to occur. Naltrexone (Revia) maintenance is the other treatment for which there is evidence of effectiveness in the SMI population. There appears to be no evidence that the use of disulfiram and naltrexone together improves efficacy. At present, there is no evidence that acamprosate (Campral) is effective in the SMI population. This is understandable, since this drug is much more difficult to take, requiring three times per day dosing. However, side effects and interaction risks with other medications are minimal.
  - **Cocaine and amphetamine** (including methamphetamine) dependent patients are particularly problematic since use of these drugs typically exacerbates psychosis. Psychopharmacologic treatment of the schizophrenia or schizoaffective disorder is indicated along with psychosocial treatments for stimulant dependence. SAMHSA has published a curriculum titled, "Matrix Intensive Outpatient Treatment for People with

Stimulant Use Disorders”, specifically for treatment of stimulant abusers. Information for obtaining this can be found below.

- **Marijuana** use is associated with more mental illness than occurs in non-users. A study of 14-16 year-olds who smoked marijuana found that they were more likely to ultimately develop a psychotic disorder than controls. While there is no good evidence for a “cannabis psychosis,” people diagnosed with schizophrenia are at higher risk for psychotic episodes. Cannabis is also more associated with positive rather than negative symptoms of schizophrenia. Bipolar patients may be at risk for lengthier affective episodes and rapid cycling. On the web, there are testimonials that marijuana helps bipolar disorder, but the scientific evidence is the opposite.

For non-psychotic individuals, there may be the perception that marijuana is a benign drug. However, emergency room visits associated with marijuana abuse have been rising and this is thought to be related to the increased potency of marijuana in recent years (SAMHSA). There is no specific pharmacologic treatment for marijuana dependence.

- **Nicotine:** Treatment of nicotine dependence should be attempted. Discussion of treatment options and health consequences when done in an empathic and a non-coercive way often helps the therapeutic relationship because the patient can see that the doctor is really interested in his or her health and not in blaming him or her for using drugs. The new drug, varenicline (Chantix), appears to be more helpful than nicotine replacement therapy. It is a partial agonist at the nicotine receptor. In theory, it may offer cognitive benefits in schizophrenia, although this has not been tested.

### 3. CERTIFICATION REGARDING LOBBYING

Title 31, United States Code, Section 1352, entitled "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions," generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non-appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs (45 CFR Part 93).

The undersigned (authorized official signing for the applicant organization) certifies, to the best of his or her knowledge and belief, that:

- (1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the under-

signed, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

- (2) If any funds other than Federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions. (If needed, Standard Form-LLL, "Disclosure of Lobbying Activities," its instructions, and continuation sheet are included at the end of this application form.)
- (3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

### 4. CERTIFICATION REGARDING PROGRAM FRAUD CIVIL REMEDIES ACT (PFCRA)

The undersigned (authorized official signing for the applicant organization) certifies that the statements herein are true, complete, and accurate to the best of his or her knowledge, and that he or she is aware that any false, fictitious, or fraudulent statements or claims may subject him or her to criminal, civil, or administrative penalties. The undersigned agrees that the applicant organization will comply with the Public Health Service terms and conditions of award if a grant is awarded as a result of this application.

**5. CERTIFICATION REGARDING ENVIRONMENTAL TOBACCO SMOKE**

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. ## General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

### Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

**Note.** If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

**Definition of a U.S. person.** For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

**Special rules for partnerships.** Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,
- The U.S. grantor or other owner of a grantor trust and not the trust, and
- The U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

**Foreign person.** If you are a foreign person, do not use Form W-9. Instead, use the appropriate Form W-8 (see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

**Nonresident alien who becomes a resident alien.** Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a “saving clause.” Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items:

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

**Example.** Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity not subject to backup withholding, give the requester the appropriate completed Form W-8.

**What is backup withholding?** Persons making certain payments to you must under certain conditions withhold and pay to the IRS a percentage of such payments. This is called “backup withholding.” Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

#### **Payments you receive will be subject to backup withholding if:**

1. You do not furnish your TIN to the requester,
2. You do not certify your TIN when required (see the Part II instructions on page 3 for details),
3. The IRS tells the requester that you furnished an incorrect TIN,
4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or
5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See the instructions below and the separate Instructions for the Requester of Form W-9.

Also see *Special rules for partnerships* on page 1.

### **Updating Your Information**

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account, for example, if the grantor of a grantor trust dies.

### **Penalties**

**Failure to furnish TIN.** If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

**Civil penalty for false information with respect to withholding.** If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

**Criminal penalty for falsifying information.** Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

**Misuse of TINs.** If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

### **Specific Instructions**

#### **Name**

If you are an individual, you must generally enter the name shown on your income tax return. However, if you have changed your last name, for instance, due to marriage without informing the Social Security Administration of the name change, enter your first name, the last name shown on your social security card, and your new last name.

If the account is in joint names, list first, and then circle, the name of the person or entity whose number you entered in Part I of the form.

**Sole proprietor.** Enter your individual name as shown on your income tax return on the “Name” line. You may enter your business, trade, or “doing business as (DBA)” name on the “Business name/disregarded entity name” line.

**Partnership, C Corporation, or S Corporation.** Enter the entity's name on the “Name” line and any business, trade, or “doing business as (DBA) name” on the “Business name/disregarded entity name” line.

**Disregarded entity.** Enter the owner's name on the “Name” line. The name of the entity entered on the “Name” line should never be a disregarded entity. The name on the “Name” line must be the name shown on the income tax return on which the income will be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a domestic owner, the domestic owner's name is required to be provided on the “Name” line. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity's name on the “Business name/disregarded entity name” line. If the owner of the disregarded entity is a foreign person, you must complete an appropriate Form W-8.

**Note.** Check the appropriate box for the federal tax classification of the person whose name is entered on the “Name” line (Individual/sole proprietor, Partnership, C Corporation, S Corporation, Trust/estate).

**Limited Liability Company (LLC).** If the person identified on the “Name” line is an LLC, check the “Limited liability company” box only and enter the appropriate code for the tax classification in the space provided. If you are an LLC that is treated as a partnership for federal tax purposes, enter “P” for partnership. If you are an LLC that has filed a Form 8832 or a Form 2553 to be taxed as a corporation, enter “C” for C corporation or “S” for S corporation. If you are an LLC that is disregarded as an entity separate from its owner under Regulation section 301.7701-3 (except for employment and excise tax), do not check the LLC box unless the owner of the LLC (required to be identified on the “Name” line) is another LLC that is not disregarded for federal tax purposes. If the LLC is disregarded as an entity separate from its owner, enter the appropriate tax classification of the owner identified on the “Name” line.

**Other entities.** Enter your business name as shown on required federal tax documents on the "Name" line. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on the "Business name/disregarded entity name" line.

**Exempt Payee**

If you are exempt from backup withholding, enter your name as described above and check the appropriate box for your status, then check the "Exempt payee" box in the line following the "Business name/disregarded entity name," sign and date the form.

Generally, individuals (including sole proprietors) are not exempt from backup withholding. Corporations are exempt from backup withholding for certain payments, such as interest and dividends.

**Note.** If you are exempt from backup withholding, you should still complete this form to avoid possible erroneous backup withholding.

The following payees are exempt from backup withholding:

1. An organization exempt from tax under section 501(a), any IRA, or a custodial account under section 403(b)(7) if the account satisfies the requirements of section 401(f)(2),
  2. The United States or any of its agencies or instrumentalities,
  3. A state, the District of Columbia, a possession of the United States, or any of their political subdivisions or instrumentalities,
  4. A foreign government or any of its political subdivisions, agencies, or instrumentalities, or
  5. An international organization or any of its agencies or instrumentalities.
- Other payees that may be exempt from backup withholding include:
6. A corporation,
  7. A foreign central bank of issue,
  8. A dealer in securities or commodities required to register in the United States, the District of Columbia, or a possession of the United States,
  9. A futures commission merchant registered with the Commodity Futures Trading Commission,
  10. A real estate investment trust,
  11. An entity registered at all times during the tax year under the Investment Company Act of 1940,
  12. A common trust fund operated by a bank under section 584(a),
  13. A financial institution,
  14. A middleman known in the investment community as a nominee or custodian, or
  15. A trust exempt from tax under section 664 or described in section 4947.

The following chart shows types of payments that may be exempt from backup withholding. The chart applies to the exempt payees listed above, 1 through 15.

<b>IF the payment is for . . .</b>	<b>THEN the payment is exempt for . . .</b>
Interest and dividend payments	All exempt payees except for 9
Broker transactions	Exempt payees 1 through 5 and 7 through 13. Also, C corporations.
Barter exchange transactions and patronage dividends	Exempt payees 1 through 5
Payments over \$600 required to be reported and direct sales over \$5,000 <sup>1</sup>	Generally, exempt payees 1 through 7 <sup>2</sup>

<sup>1</sup> See Form 1099-MISC, Miscellaneous Income, and its instructions.

<sup>2</sup> However, the following payments made to a corporation and reportable on Form 1099-MISC are not exempt from backup withholding: medical and health care payments, attorneys' fees, gross proceeds paid to an attorney, and payments for services paid by a federal executive agency.

**Part I. Taxpayer Identification Number (TIN)**

**Enter your TIN in the appropriate box.** If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN. However, the IRS prefers that you use your SSN.

If you are a single-member LLC that is disregarded as an entity separate from its owner (see *Limited Liability Company (LLC)* on page 2), enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

**Note.** See the chart on page 4 for further clarification of name and TIN combinations.

**How to get a TIN.** If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local Social Security Administration office or get this form online at [www.ssa.gov](http://www.ssa.gov). You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at [www.irs.gov/businesses](http://www.irs.gov/businesses) and clicking on Employer Identification Number (EIN) under Starting a Business. You can get Forms W-7 and SS-4 from the IRS by visiting [IRS.gov](http://IRS.gov) or by calling 1-800-TAX-FORM (1-800-829-3676).

If you are asked to complete Form W-9 but do not have a TIN, write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

**Note.** Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

**Caution:** *A disregarded domestic entity that has a foreign owner must use the appropriate Form W-8.*

**Part II. Certification**

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, below, and items 4 and 5 on page 4 indicate otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on the "Name" line must sign. Exempt payees, see *Exempt Payee* on page 3.

**Signature requirements.** Complete the certification as indicated in items 1 through 3, below, and items 4 and 5 on page 4.

**1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983.** You must give your correct TIN, but you do not have to sign the certification.

**2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983.** You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

**3. Real estate transactions.** You must sign the certification. You may cross out item 2 of the certification.

**4. Other payments.** You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

**5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions.** You must give your correct TIN, but you do not have to sign the certification.

### Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information such as your name, social security number (SSN), or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

#### Protect yourself from suspicious emails or phishing schemes.

Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to [phishing@irs.gov](mailto:phishing@irs.gov). You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at: [spam@uce.gov](mailto:spam@uce.gov) or contact them at [www.ftc.gov/idtheft](http://www.ftc.gov/idtheft) or 1-877-IDTHEFT (1-877-438-4338).
