Section 2

Service Specifications

I. Introduction

A. Overview, purpose or need

The Adult Mental Health Division (“DIVISION”) of the Hawaii State Department of Health (“DEPARTMENT”) is responsible for coordinating public and private human services into an integrated and responsive delivery system for mental health needs. Provision of direct services to consumers in the public sector is offered through programs offered by the Community Mental Health Centers (“CENTERS”) and the Hawaii State Hospital (“HOSPITAL”). In addition, the DIVISION contracts on a purchase of service basis with private providers for mental health services to supplement the efforts of the CENTERS and the HOSPITAL.

For purposes related to this RFP, the basic functions or responsibilities of the DIVISION include:

1. Defining the services to be provided to consumers by the applicant;
2. Developing the rules, policies, regulations, and procedures to be followed under the programs administered by the department;
3. Procuring, negotiating, and contracting with selected applicants;
4. Determining initial and continuing eligibility of consumers;
5. Enrolling and disenrolling consumers;
6. Reviewing and ensuring the adequacy of the applicant’s employees and providers;
7. Authorizing and determining necessity of DIVISION funded services;
8. Monitoring the quality of services provided by the applicants and subcontractors;
9. Reviewing and analyzing utilization of services and reports provided by the applicants;
10. Handling unresolved consumer grievances and appeals with the applicants;
11. Monitoring the financial status and billing practices of applicants;
12. Identifying and investigating fraud and abuse;
13. Analyzing the effectiveness of the program in meeting its objectives;
14. Conducting research activities;
15. Providing technical assistance to the applicants;
16. Providing consumer eligibility information to the applicants;
17. Payments to contracted applicants; and
18. Imposing civil or administrative penalties, monetary penalties and/or financial sanctions for violations of specific contract provisions.

Since persons who are severely and persistently mentally ill typically manifest varying levels of need for care and often experience cyclical episodes of recurrence of the illness, a variety of service and housing options must be provided simultaneously to the individual and tailored to meet his/her current

needs. Among these required services are those which must address the needs of persons when they are homeless, when they are experiencing a bout of illness or in relapse, and when services sought reflect the assumption that services provided to persons who are severe and persistent mentally ill, are community-based, are well-coordinated, and produce outcomes that benefit both the consumer and society.

B. Planning activities conducted in preparation for this RFP

The DIVISION published a Request for Information on August 27, 2007 in the design of Therapeutic Living Programs seeking the public's input on the availability of potential service providers, staffing capabilities for services and culturally specific service capabilities.

A series of planning events, including needs assessment conducted in 2000, were held with mental health stakeholders (consumers, staff, private providers, advocates, and family members) to determine the range of public mental health services for persons with severe and persistent mental illness. During these meetings, views were expressed on how to improve services and achieve system-wide goals. Most importantly, input had been received for provision of comprehensive, accessible services on each island and in rural locations with a range of housing options, a choice of treatment, and rehabilitation with access to case managers, and other services after regular working hours. Based on these findings, the DIVISION has appropriated funding to provide services to consumers by contracting with purchase of service providers. These services shall reflect national standards of care and best practices and shall be based on a philosophy of recovery-focused and cultural competent treatment, psychosocial rehabilitation and other community supports.

C. Description of the goals of the service

AMHD is deeply committed to building a system of care which is rooted and grounded in the recovery model. The cornerstone of the recovery process is the centrality of the individual, in their personal definition of meaning and purpose, and the belief that despite the ongoing presence of the illness, people continue to develop.

Hawai'i's adult mental health service delivery system is based on the concept of recovery, that consumers can lead fulfilling lives even in the presence of a severe and persistent mental illness. Services are focused on the need of the individual, not only on symptom relief and stabilization, but on consumer empowerment and the skills needed to lead satisfying, hopeful and contributing lives.

The goals for the services described in this RFP include, but are not limited to:

1. Establishing supportive residences that provide basic care, habilitation and rehabilitation services, and access to community services that support consumers to maintain themselves in the community and to successfully cope with the day to day problems and long-term adjustments of daily living in the community.
2. Meeting a niche in the mental health services' continuum of care by providing twenty four (24) hour supervised care for consumers whose behavior and needs require closer supervision and assistance with activities than what is provided in the current group homes.
3. Ensuring the consumers are provided with needed supports to sustain community living and enhance their quality of life.
4. Assisting consumers to realize their recovery, vocational, and personal goals.
5. Improving and/or establishing new linkages with a variety of community services and mobilizing the involvement of the consumer's support

D. Description of the target population to be served

Adults, 18 years and older, with severe and persistent mental illness who meet the DIVISION's eligibility criteria. The program serves adults for whom out of home care is required, and who are able to function in a community-based home-like setting which aids the consumer in meeting the basic needs and provide supportive services through a required service plan.

E. Geographic coverage of service

Island of Oahu

F. Probable funding amounts, source, and period of availability

The source of funding is state funds or a combination of state and federal funds. Both profit and non-profit organizations are eligible for state funds. Please note that based on the availability of funds, the amount allocated to providers who are awarded contracts may change.

The DIVISION considers itself the payor of last resort, and expects providers to obtain third party reimbursement as applicable. The DIVISION gives priority to the uninsured.

Start-up costs up to \$2,000.00 will be allowed for the purpose of setting up electronic billing, subject to approval by the DIVISION. Start-up costs should reference the purchase of software that performs the function of creating a Health

Insurance Portability and Accountability Act of 1996 (“HIPAA”) compliant 837, including optional fields.

The criteria for determining the amount allocated for setting up electronic billing will be based on the applicant demonstrating that they are able to submit 837 compliant claims files including DIVISION optional fields. Where software is being purchased, applicants must submit documentation from the vendor selected which includes the full purchase price of the software and supporting evidence that the software meets required specifications. Direct contact with the vendor to confirm the functionality of the product may be necessary prior to allocation of funds. Should an applicant wish to use the funding to support the costs of modifying an existing billing system, the applicant must obtain prior approval of their project plan. This plan must include milestones which demonstrate that the modifications will be completed in time to meet the electronic billing deadline referenced in this RFP. The plan must also identify personnel resources, describe the modifications planned and estimate the number of hours required to complete the project. Payment would be made upon successful acceptance of an 837 claims file by DIVISION.

The request for start-up costs is optional and not required as part of the proposal application package.

If an applicant materially fails to comply with terms and conditions of the contract, the DIVISION may, as appropriate under the circumstances:

1. Temporarily withhold payments pending correction of a deficiency or a non-submission of a report by a provider.
2. Disallow all or part of the cost.
3. Restrict, suspend or terminate the contract.

In the event that the additional funds become available for similar services, the DEPARTMENT reserves the right to increase funding amounts.

Competition is encouraged among as many applicants as possible.

Title 31, United States Code, Section 1352, entitled "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions," generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non-appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs (45 CFR Part 93).

The undersigned (authorized official signing for the applicant organization) certifies, to the best of his or her knowledge and belief, that:

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, U.S. Code. The undersigned (authorized official signing for the applicant organization) certifies that the statements herein are true, complete, and accurate to the best of his or her knowledge, and that he or she is aware that any false, fictitious, or fraudulent statements or claims may subject him or her to criminal, civil, or administrative penalties. The undersigned agrees that the applicant organization will comply with the Public Health Service terms and conditions of award if a grant is awarded as a result of this application.

5. CERTIFICATION REGARDING ENVIRONMENTAL TOBACCO SMOKE

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.
